

Comparing a Multiple Regression Model Across Criterion Variables

Sometimes we have multiple behaviors or responses that might be used as criterion variables. When this happens we might want to determine whether the models to predict the different criterion differ. This can be a useful way of determining whether or not behaviors or responses represent "the same thing".

For example we might have two different criteria by which we assess the "performance" of 1st year graduate students: 1) their grades and 2) the number of presentations and/or publications they obtain or collaborate on during their first year. Are the multiple regression models for predicting these two from GRE scores "the same"?

First we get the multiple regression model for each criterion, in turn. Here's the abbreviated output ...

For GPA as the criterion

Model Summary

| Model | R | R Square | Adjusted R Square | Std. Error of the Estimate |
|-------|-------------------|----------|-------------------|----------------------------|
| 1 | .752 ^a | .572 | .563 | .29152 |

a. Predictors: (Constant), Verbal subscore of GRE, Quantitative subscore of GRE, Analytic subscore of GRE

Coefficients^a

| Model | | Unstandardized Coefficients | Standardized Coefficients | Sig. |
|-------|------------------------------|-----------------------------|---------------------------|------|
| | | B | Beta | |
| 1 | (Constant) | -1.215 | | .003 |
| | Analytic subscore of GRE | 6.78E-03 | .551 | .000 |
| | Quantitative subscore of GRE | 3.42E-03 | .462 | .000 |
| | Verbal subscore of GRE | -.23E-03 | -.235 | .001 |

a. Dependent Variable: 1st year graduate gpa -- criterion variable

For #pubs & presentations as the criterion

Model Summary

| Model | R | R Square | Adjusted R Square | Std. Error of the Estimate |
|-------|-------------------|----------|-------------------|----------------------------|
| 1 | .917 ^a | .842 | .838 | .24176 |

a. Predictors: (Constant), Verbal subscore of GRE, Quantitative subscore of GRE, Analytic subscore of GRE

Coefficients^a

| Model | | Unstandardized Coefficients | Standardized Coefficients | Sig. |
|-------|------------------------------|-----------------------------|---------------------------|------|
| | | B | Beta | |
| 1 | (Constant) | 7.706 | | .000 |
| | Analytic subscore of GRE | 1.1E-04 | .009 | .827 |
| | Quantitative subscore of GRE | 4.0E-04 | .058 | .152 |
| | Verbal subscore of GRE | 8.6E-03 | .893 | .000 |

a. Dependent Variable: PUBPRES

Inspection of the β weights of the two models suggests that:

- The fit of the two models to the criteria appears to be different -- $R^2 = .572$ for GPA, and .842 for publications/presentations.
- There is no direct test of these correlations -- can't use Fisher's Z-test because the models are from the same sample & can't use Hotelling's/Meng, etc. tests because both the criterion and the predictors producing the R values are different.
- The models appear to have very different "structures"
- Prediction of 1st year GPA involves all three GRE subscales (with somewhat less contribution from the suppressor variable GREV)
- Prediction of 1st year #publications/presentations involves only GREV, in this sample.
- To formally compare these models we will need to ...
- Apply both models to the prediction of a single criterion (we'll use GPA)
- Compare the R obtained from these applications, taking the correlation between the models into account

Comparing A Multiple Regression Model Across Groups:

Multiple Regression and Beyond Timothy Z. Keith, 2019-01-14 Companion Website materials <https://tzkeith.com> Multiple Regression and Beyond offers a conceptually oriented introduction to multiple regression MR analysis and structural equation modeling SEM along with analyses that flow naturally from those methods By focusing on the concepts and purposes of MR and related methods rather than the derivation and calculation of formulae this book introduces material to students more clearly and in a less threatening way In addition to illuminating content necessary for coursework the accessibility of this approach means students are more likely to be able to conduct research using MR or SEM and more likely to use the methods wisely This book Covers both MR and SEM while explaining their relevance to one another Includes path analysis confirmatory factor analysis and latent growth modeling Makes extensive use of real world research examples in the chapters and in the end of chapter exercises Extensive use of figures and tables providing examples and illustrating key concepts and techniques New to this edition New chapter on mediation moderation and common cause New chapter on the analysis of interactions with latent variables and multilevel SEM Expanded coverage of advanced SEM techniques in chapters 18 through 22 International case studies and examples Updated instructor and student online resources

Generalizing the Regression Model Blair Wheaton, Marisa Young, 2021-01-22 This comprehensive text introduces regression the general linear model structural equation modeling the hierarchical linear model growth curve models panel data and event history models and includes discussion of published implementations of each technique showing how it was used to address substantive and interesting research questions It takes a step by step approach in the presentation of each topic using mathematical derivations where necessary but primarily emphasizing how the methods involved can be implemented are used in addressing representative substantive problems than span a number of disciplines and can be interpreted in words The book demonstrates the analyses in STATA and SAS *Generalizing the Regression Model* provides students with a bridge from the classroom to actual research practice and application

Statistical Methods for Communication Science Andrew F. Hayes, 2020-10-14 Statistical Methods for Communication Science is the only statistical methods volume currently available that focuses exclusively on statistics in communication research Writing in a straightforward personal style author Andrew F Hayes offers this accessible and thorough introduction to statistical methods starting with the fundamentals of measurement and moving on to discuss such key topics as sampling procedures probability reliability hypothesis testing simple correlation and regression and analyses of variance and covariance Hayes takes readers through each topic with clear explanations and illustrations He provides a multitude of examples all set in the context of communication research thus engaging readers directly and helping them to see the relevance and importance of statistics to the field of communication Highlights of this text include thorough and balanced coverage of topics integration of classical methods with modern resampling approaches to inference consideration of practical real world issues numerous examples

and applications all drawn from communication research up to date information with examples justifying use of various techniques and downloadable resources with macros data sets figures and additional materials This unique book can be used as a stand alone classroom text a supplement to traditional research methods texts or a useful reference manual It will be invaluable to students faculty researchers and practitioners in communication and it will serve to advance the understanding and use of statistical methods throughout the discipline

Applied Statistics II Rebecca M. Warner, 2020-01-14 Rebecca M Warner's bestselling *Applied Statistics From Bivariate Through Multivariate Techniques* has been split into two volumes for ease of use over a two course sequence *Applied Statistics II Multivariable and Multivariate Techniques Third Edition* is a core multivariate statistics text based on chapters from the second half of the original book The text begins with two new chapters an introduction to the new statistics and a chapter on handling outliers and missing values All chapters on statistical control and multivariable or multivariate analyses from the previous edition are retained with the moderation chapter heavily revised and new chapters have been added on structural equation modeling repeated measures and on additional statistical techniques Each chapter includes a complete example and begins by considering the types of research questions that chapter's technique can answer progresses to data screening and provides screen shots of SPSS menu selections and output and concludes with sample results sections By hand computation is used where possible to show how elements of the output are related to each other and to obtain confidence interval and effect size information when SPSS does not provide this Datasets are available on the accompanying website Bundle and Save *Applied Statistics II Applied Statistics I Basic Bivariate Techniques Third Edition Bundle Volume I and II* ISBN 978 1 0718 1337 9 An R Companion for *Applied Statistics II Multivariable and Multivariate Techniques Applied Statistics II Bundle* ISBN 978 1 0718 3618 7

Geometric Morphometrics for Biologists Miriam Zelditch, Donald Swiderski, 2025-11-17 *Geometric Morphometrics for Biologists A Primer Third Edition* explores how these geometric methods allow for the study of biological shape by incorporating the geometry of organisms throughout data analyses Novel content on phylogenetic comparative methods evolutionary morphology analyses of disparity genetics of shape and simulating shape data is included This edition delivers step by step guidance on how to effectively utilize updated analytical software while also providing guidance on important methodologies that remain relevant to the field to ensure clear and effective instruction to audiences new to this branch of data analysis It succeeds the second edition as the primary resource for teaching modern geometric methods of shape analysis to students researchers and practicing scientists in the field of organismal biology Users will find it to be an immensely valuable introduction for students and practicing biologists interested in learning applications of multivariate statistics and matrix algebra to organismal biology Introduces geometric morphometric analyses to researchers and students of organismal biology Presents updated coverage of emerging methods Provides detailed instructions for conducting analyses with free easy to use software Delivers graphical presentations of key concepts and demonstrations of alternative modeling

approaches **International Handbook of Research Methods And Statistics (Volume 1)** Urfat Anjem Mlr, Sonam Joldan, Vinay Kumar, Sonia Saini, The International Handbook of Research in Statistics Education provides a comprehensive global overview of the latest research trends and practices in the teaching and learning of statistics Edited by Dani Ben Zvi Katie Makar and Joan Garfield this handbook brings together leading scholars to explore foundational theories innovative methodologies and emerging challenges in statistics education Covering topics such as statistical reasoning learning trajectories teacher development curriculum design and the role of technology the book serves as a critical resource for researchers educators curriculum developers and policymakers Rich with evidence based insights and international perspectives it offers both theoretical depth and practical applications making it an essential guide for advancing the field of statistics education **Multiple Regression in Behavioral Research** Elazar J. Pedhazur, 1997 This text adopts a data analysis approach to multiple regression The author integrates design and analysis and emphasises learning by example and critiquing published research **Handbook of Nutrition and Food** Carolyn D. Berdanier, Johanna T. Dwyer, Elaine B. Feldman, 2007-08-24 Significantly revised and updated this second edition of the bestselling Handbook of Nutrition and Food welcomes contributions from several new authors including Elaine B Feldman and Johanna Dwyer notable leaders in nutritional science Retaining the high level of scientific research accessible language and attention to detail of the original

Comparing A Multiple Regression Model Across Groups Introduction

In today's digital age, the availability of Comparing A Multiple Regression Model Across Groups books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Comparing A Multiple Regression Model Across Groups books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Comparing A Multiple Regression Model Across Groups books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Comparing A Multiple Regression Model Across Groups versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Comparing A Multiple Regression Model Across Groups books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Comparing A Multiple Regression Model Across Groups books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Comparing A Multiple Regression Model Across Groups books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural

artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Comparing A Multiple Regression Model Across Groups books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Comparing A Multiple Regression Model Across Groups books and manuals for download and embark on your journey of knowledge?

FAQs About Comparing A Multiple Regression Model Across Groups Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Comparing A Multiple Regression Model Across Groups is one of the best book in our library for free trial. We provide copy of Comparing A Multiple Regression Model Across Groups in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Comparing A Multiple Regression Model Across Groups. Where to download Comparing A Multiple Regression Model Across Groups online for free? Are you looking for Comparing A Multiple Regression Model Across Groups PDF? This

is definitely going to save you time and cash in something you should think about.
