## Friction

1. A crate filled with delicious junk food rests on a horizontal floor. Only gravity and the support force of the floor act on it, as shown by the vectors for weight  $W$  and normal force  $n$ .

- The net force on the crate is (zero) (greater than zero).
- Evidence for this is no acceleration.

2. A slight pull  $P$  is exerted on the crate, not enough to move it.

- The force of friction  $f$  acting on the crate is (less than) (equal to) (greater than)  $P$ .
- The net force on the crate is (zero) (greater than zero).

3. Pull  $P$  is increased until the crate begins to move. It is pulled so that it moves with constant velocity across the floor.

- Friction  $f$  is (less than) (equal to) (greater than)  $P$ .
- Constant velocity means acceleration is (zero) (greater than zero).
- The net force on the crate is (less than) (equal to) (greater than) zero.

4. Pull  $P$  is further increased and is now greater than friction  $f$ .

- The net force on the crate is (less than) (equal to) (greater than) zero.
- The net force acts toward the right, so acceleration acts toward the (left) (right).

- If the pulling force  $P$  is 150 N and the crate doesn't move, what is the magnitude of  $f$ ? 150 N
- If the pulling force  $P$  is 200 N and the crate doesn't move, what is the magnitude of  $f$ ? 200 N
- If the force of sliding friction is 250 N, what force is necessary to keep the crate sliding at constant velocity? 250 N
- If the mass of the crate is 50 kg and sliding friction is 250 N, what is the acceleration of the crate when the pulling force is 250 N? 0 m/s<sup>2</sup> 300 N? 1 m/s<sup>2</sup> 500 N? 5 m/s<sup>2</sup>

**Building Support for Scholarly Practices in Mathematics Methods** Signe E. Kastberg,Andrew M. Tyminski,Alyson E. Lischka,Wendy B. Sanchez,2017-09-01 Building Support for Scholarly Practices in Mathematics Methods is the product of collaborations among over 40 mathematics teacher educators MTEs who teach mathematics methods courses for prospective PreK 12 teachers in many different institutional contexts and structures Each chapter unpacks ways in which MTEs use theoretical perspectives to inform their construction of goals activities designed to address those goals facilitation of activities and ways in which MTEs make sense of experiences prospective teachers have as a result The book is organized in seven sections that highlight how the theoretical perspective of the instructor impacts scholarly inquiry and practice The final section provides insight as we look backward to reflect and forward with excitement moving with the strength of the variation we found in our stories and the feeling of solidarity that results in our understandings of purposes for and insight into teaching mathematics methods This book can serve as a resource for MTEs as they discuss and construct scholarly practices and as they undertake scholarly inquiry as a means to systematically examine their practice **Early Childhood Curriculum Resource Handbook** ,1993 Theoretical Nursing Afaf Ibrahim Meleis,2011 An additional assumption was that the processes for theory development were new to nursing and hence nurses in graduate programs learned strategies for advancing knowledge from other disciplines This assumption was debunked with the knowledge that nurses were always engaged in knowledge development driven by their experiences in clinical practice Because of these assumptions most of the early writing about theory development was about outlining strategies that should be used rather than strategies that have already been used in the discipline to develop theories Theorists themselves did not uncover or adequately discuss ways by which they developed their theories therefore the tendency was to describe processes that were based on theories developed in other disciplines mainly the physical and social sciences And an implicit assumption was made that there should be a single strategy for theory development some claiming to begin the process from practice and others believing it should be driven by research Provided by publisher Chinese Heritage Sites and their Audiences Rouran Zhang,2020-03-17 Chinese Heritage Sites and their Audiences provides a Chinese perspective on tourists relationship to heritage Contributing to ongoing debates within heritage and tourism studies the book offers insights into how and why visitors engage with such sites Drawing on interviews with domestic tourists local residents and heritage officials at the World Heritage sites of West

Lake Xidi and Hongcun Zhang argues that tourists have agency when they visit heritage sites they are doing cultural social and emotional work whilst also negotiating cultural meanings Providing an examination of the complex interactions between locals and tourists the author then considers how tourists navigate and interpret heritage sites Finally Zhang examines whether the government or locally controlled tourism enterprises are more effective in facilitating meaningful cultural interaction between tourists and locals Overall the book demonstrates the interrelation between tourism and heritage and the tensions that are created when the ways in which sites are used differ from the expectations of UNESCO and national or regional site managers Chinese Heritage Sites and their Audiences pays particular attention to ongoing debates about heritage performances the importance of emotions and the agency of tourists and will thus appeal to academics and students engaged in the study of heritage tourism landscape architecture and anthropology **Leonardo** ,2002 International journal of contemporary visual artists *An Introductory Guide to EC Competition Law and Practice* Valentine Korah,1994
