Contemporary Issues In Accounting:

Contemporary Issues in Accounting Margaret Drever, Patricia Stanton, Susan McGowan, 2007 Contemporary Issues in Accounting is a new textbook which offers a more applied introduction to a range of contemporary issues facing the accounting profession The text presents a basic overview of the conceptual framework that governs the profession before examining a series of contemporary accounting issues The text is written for third year undergraduate financial accounting subjects that seek to offer students a practical overview of financial accounting and the various contemporary issues facing the profession Students will benefit from the plain English writing style the broad issues based approach with applications to business and the diversity of the accounting issues covered

Contemporary Issues in Accounting, 2012 Contemporary Issues in Accounting is written for upper level advanced financial accounting subjects The text explores advanced accounting concepts and policies by applying them to a range of contemporary accounting issues The accounting topics discussed reflect the issues that are being considered in professional practice such as approaches to measurement fair value accounting the Conceptual Framework for financial reporting corporate governance environmental accounting and sustainability earnings management and the financial indicators of corporate collapse

Contemporary Issues in Accounting Elaine Conway, Darren Byrne, 2018-06-01 The book explores the developing challenges and opportunities within the business and finance world which are likely to impact the accounting profession in the near future It outlines a number of approaches to ensure that the accountants of the future are equipped with a useful awareness of some of the key topic areas that are quickly becoming a reality and helps bridge the gap between academia and practice The chapters are standalone introductory pieces to provide useful pr cis of key topics and how they apply to the accounting profession in particular It aims to deliver key readings on hot topics not addressed in other texts which the accounting profession is tackling or are likely to tackle soon Hence the book provides accounting students and researchers a solid grounding in a broad range of highly relevant non technical accounting themes looking at the bigger environment in which future accountants will be operating involving considerations of strategic corporate governance issues and highlighting competences beyond the standard technical accounting skill sets

CONTEMPORARY ISSUES IN ACCOUNTING 1E. Michaela Rankin, 2012 Contemporary Issues in Accounting is written for upper level advanced financial accounting subjects The text explores advanced accounting concepts and policies by applying them to a range of contemporary accounting issues The accounting topics discussed reflect the issues that are being considered in professional practice such as approaches to measurement fair value accounting the Conceptual Framework for financial reporting corporate governance environmental accounting and sustainability earnings management and the financial indicators of corporate collapse

Contemporary Issues in Accounting Michaela Rankin, Kimberly Ferlauto, Susan McGowan, Patricia McGowan, 2018-11-16 Contemporary Issues in Accounting 2nd Edition is suited to a wide range of courses particularly relevant to advanced financial accounting subjects at both an undergraduate and postgraduate level It considers

a broad range of financial accounting issues facing contemporary businesses from a range of perspectives including appropriate theories and research findings The 2nd edition examines the regulatory setting within which accounting operates from the context of the process of standard setting and the Conceptual Framework Within this framework one of the most controversial areas of accounting measurement is examined in detail Alternative measurement choices are considered with intangibles and sustainability reporting being examined in more detail as they are areas with unique measurement challenges With the increasing use of fair value measurement we present a comprehensive analysis of this measurement basis including its application in specific contexts

Contemporary Issues in Accounting Regulation Stuart McLeay,Angelo Riccaboni,2012-12-06 Contemporary Issues in Accounting Regulation looks at accounting regulation in a different way The opening chapters explore the tension between the power of the state and the forces of the market and other aspects of the political dimension to accounting regulation The book also examines the process of setting accounting standards highlighting the crucial role of standard setters in assessing the level of public support for an issue in the face of opposing positions taken by powerful interest groups In addition the book provides an introduction to the theoretical framework of accounting regulation looking at choices between controversial accounting methods and at markets that are characterized by asymmetry of information and beliefs The final chapters of the book are concerned with creative accounting deregulation of financial reporting by smaller companies and the link between price regulation and accounting policy choices
