Neutralization Daniel Doron Silverman, 2012-08-16 Provides in depth nuanced and critical analyses of many theoretical approaches to neutralization in phonology and argues for a strictly functional characterization of the term The book includes a glossary discussion points and lists of further reading to help advanced phonology students consolidate the main ideas and findings on neutralization

Compensatory Lengthening Darya Kavitskaya, 2014-06-03 First Published in 2002 This volume is part of the Outstanding Dissertations in Linguistics series and focuses on phonetics phonology and diachrony of compensatory lengthening The term compensatory lengthening CL refers to a set of phonological phenomena wherein the disappearance of one element of a representation is accompanied by a corresponding lengthening of another element This study focuses on descriptive and formal similarities and divergences between CL of vowels triggered by

consonant and by vowel loss The Effects of Duration and Sonority on Countour Tone Distribution Jie Zhang, 2013-12-16
First Published in 2002 Part of the Outstanding Dissertations in Linguistics series this is an in depth investigation of the effects of duration and sonority on contour tone distribution The term tone language usually refers to languages in which the pitch of a syllable serves lexical or grammatical functions In some tone languages the contrastive functions of pitch are sometimes played by pitch changes within a syllable Pitch changes of this kind are called contour tones The distribution of contour tones in a language are when under what phonological contexts contour tones are more readily realized

Southern English Varieties Then and Now Laura Wright, 2018-07-23 Most of the world's Extraterritorial Englishes stem historically from southern English dialects Southern England having been the most densely habited part of the country However the dialects of Southern England remain under studied The papers in this volume consider both diachronic and synchronic aspects of the dialects of Norfolk Suffolk Essex Kent Sussex Dorset Somerset Devon Cornwall Gloucestershire and the Isles of Scilly

Auditory Representations in Phonology Edward S. Flemming, 2013-10-08 This book provides evidence for the importance of auditory properties of speech sounds in phonology *Constraints on Phonological Interactions* Lev Aleksandrovich Blūmenfel'd, 2006 **Encyclopedia of Language & Linguistics** E. Nasukawa, Phillip Backley, 2009 This collection of papers explores the theme of phonological strength The general notion of strength plays a central role in explaining a variety of apparently disparate phonological effects relating to language acquisition tone and pitch accent p **An Effort Based Approach to Consonant Lenition** Robert Martin Kirchner, 2001

First Published in 2002 Routledge is an imprint of Taylor Francis an informa company **Phonological Patterns and Phonetic Manifestations of Consonant Weakening** Lisa Marie Lavoie, 2000 *The Articulatory Basis of Locality in Phonology* Adamantios I. Gafos, 2014-04-08 This work elucidates the nature of the notion of Locality in phonology describing the minimal conditions under which sounds assimilate to one another The central thesis is that a sound can assimilate to another sound only if gestural contiguity is established between these two sounds The argument supporting the central thesis of this book is unique in bringing evidence from articulatory dynamics electromyography and cross linguistic sound patterns to converge on the same notion of locality in phonology This book will be of particular interest to researchers in phonetics phonology and morphology as well as to cognitive scientists interested in how the grammar may include constraints that emerge from the physical aspects of speech **Lenition and Contrast** Naomi Gurevich, 2013-05-13 This

book analyzes 153 languages from a large variety of families to establish a previously unexplored relationship between phonetically conditioned sound changes such as lenitions and functional meaning maintenance related considerations Carefully collecting numerous inventories of consonants this collection is likely to become an important resource for future

linguistics research By distinguishing between phonetic and phonological neutralization and showing that the first does not necessarily result in the second Naomi Gurevich uncovers previously unexplored and often surprising trends in the relationship between phonetics and phonology Production, Perception, and Phonotactic Patterns Alexei Kochetov, 2013-12-16 First Published in 2002 Production Perception and Phonotactic Patterns presents the first experimental study of articulatory dynamics of Russian and of secondary articulents in general with a special focus on the nature of positional markedness scales one of the key concepts in the current phonological theory Optimality Theory Through a series of experiments the author questions the traditional assumption that positional markedness scales are directly encoded in Universal Grammar and provides an alternative account based on gestural recoverability This study combines a sophisticated and in depth analysis of language particular phonetic detail with wide cross linguistic generalisations and contributes to the increasingly influential body of research that investigates phonetic factors in the search for explanations of phonological universals An Effort Based Approach to Consonant Lenition Robert Martin Kirchner, 2016-04-30 The first serious typological survey of the lenition process in modern phonological literature
