1.1 Consumer Behaviour

Introduction and Meaning

- On a broader perspective consumer behaviour a blend of two interrelated disciplines i.e. Marketing and Psychology.
- However it also blends elements from other disciplines such as sociology, social anthropology, marketing and economics.
- It examines how emotions, attitudes and preferences affect buying behaviour.
- The study of consumer behaviour is concerned with all aspects of purchasing behaviour i.e. right from pre-purchase behaviour to post-purchase consumption and evaluation behaviour.
- It is also concerned with all persons involved, either directly or indirectly, in purchasing decisions and consumption activities including brand-influencers and opinion leaders.
- The purpose to study consumer behaviour study is to understand human actions and reactions (consumer behaviour) in the best possible manner.

Consumer Behaviour Notes For Bba:

Regulating Consumer Credit Great Britain: National Audit Office,2012-12-19 UK consumers borrowed 176 billion in 2011 12 from credit card companies small businesses offering hire purchase arrangements and payday lenders The NAO estimates the Office of Fair Trading saved consumers 8 60 for every 1 it spent on enforcing regulations in 2010 11 by taking action against non compliant firms During the same period nevertheless consumers lost at least 450 million from problems that regulation did not address such as malpractice by firms that was not reported to the regulator Consumers can also make poor choices themselves The OFT is not resourced to carry out on a day to day basis either the supervision of firms or the monitoring of their compliance with licence standards This means it can act only when it receives information of non compliant behaviour by a firm Therefore some harm must already have taken place in order to prevent further losses to consumers The OFT funds consumer credit regulation solely from licence fees and today s report shows it had 11 5 million to regulate the market in 2011 12 which is not enough Furthermore weaknesses in the OFT s management information mean it cannot be sure these limited resources are being targeted to the areas of greatest risk to consumers The OFT s limited understanding of the costs of enforcement means it does not have an accurate picture of the proportion of its budget which is spent on different activities In addition the OFT does not collect information on the level of lending provided by each firm and therefore does not have a quantified understanding of the supply in the market
