Day Trade for a Living Andrew Aziz,2016-07-28 Very few careers can offer you the freedom flexibility and income that day trading does As a day trader you can live and work anywhere in the world You can decide when to work and when not to work You only answer to yourself That is the life of the successful day trader Many people aspire to it but very few succeed Day trading is not gambling or an online poker game To be successful at day trading you need the right tools and you need to be motivated to work hard and to persevere At the beginning of my trading career a pharmaceutical company announced some positive results for one of its drugs and its stock jumped from 1 to over 55 in just two days Two days I was a beginner at the time I was the amateur I purchased 1 000 shares at 4 and sold them at over 10 On my very first beginner trade I made 6 000 in a matter of minutes It was pure luck I honestly had no idea what I was doing Within a few weeks I had lost that entire 6 000 by making mistakes in other trades I was lucky My first stupid trade was my lucky one Other people are not so lucky

For many their first mistake is their last trade because in just a few minutes in one simple trade they lose all of the money they had worked so hard for. With their account at zero they walk away from day trading. As a new day trader you should never lose sight of the fact that you are competing with professional traders on Wall Street and other experienced traders around the world who are very serious, highly equipped with advanced education and tools, and most importantly committed to making money. Day trading is not gambling. It is not a hobby. You must approach day trading very, very seriously. As such, I wake up early, go for a run, take a shower, get dressed, eat breakfast, and fire up my trading station before the markets open in New York. I am awake, I am alert, I am motivated when I sit down and start working on the list of stocks I will watch that day. This morning routine has tremendously helped my mental preparation for coming into the market. Whatever your routine is, starting the morning in a similar fashion will pay invaluable dividends. Rolling out of bed and throwing water on your face 15 minutes before the opening bell just does not give you sufficient time to be prepared for the market's opening. Sitting at your computer in your pajamas or underwear does not put you in the right mindset to attack the market. I know I've experienced all of these scenarios. In *How to Day Trade for a Living* I will show you how you too can take control over your life and have success in day trading on the stock market. I love teaching. It's my passion. In this book I use simple and easy-to-understand words to explain the strategies and concepts you need to know to launch yourself into day trading on the stock market. This book is definitely NOT a difficult technical, hard-to-understand, complicated and complex guide to the stock market. It's concise. It's practical. It's written for everyone. You can learn how to beat Wall Street at its own game. And as a purchaser of my book, you will also receive a membership in my community of day traders at www.vancouvertraders.com. You can monitor my screen in real time, watch me trade the strategies explained in this book, and ask questions of me and other traders in our private chat room. I invite you to join me in the world of day trading. I'm a real person who you can connect with. I'm not just a photograph here on the Amazon site. I love what I do. You can follow my blog post under Author Updates on my Author page on Amazon. It's honest. You'll see I lose some days. You can read the reviews of my book. I know you will learn much about day trading and the stock market from studying my book. You can join at no cost and with no obligation my community of day traders at www.vancouvertraders.com. You can ask us questions. Practical, hands-on knowledge. That's *How to Day Trade for a Living*. [How to Day Trade for a Living](#) Andrew Aziz, 2021-01-31. Do you want to learn how to day trade stock and options for beginners? If yes, then keep reading. There are many different options when it comes to entering the stock market. Some are long-term investments where you make an income each quarter on the stocks you purchase. Others like day trading will be short-term with the whole trade occurring in one day. Day trading is the buying and selling of securities in one single trading day. This can occur in any type of marketplace that you choose, but it is most common in the stock market and the forex market. Typically, to do well as a day trader, you need to have some knowledge about your chosen market, and you need to have money. This book covers the following topics: Introduction to day trading, Day trading vs Swing trading, How to find stocks for trades, Risk and account management, Tools and platforms, What kind of day trader are you, Technical analysis in day trading, Introduction to candlesticks and how to use them in your strategies, Day trading strategies, Why do stock prices fluctuate, Dos and don'ts of day trading, Breakout/breakdown trading, How to choose day trading charts, Choosing your day trading securities, How much do you need to day trade, And much more. With day trading, you are not going to make a ton of money off each trade. If you make a few dollars with each trade, you are doing a good job. The point here is to do a lot of short trades, taking advantage of the temporary ups and downs of the market. A lot of little profits can add up to a good payday when the process is done.
