dependent on our work To understand a kind of pension We wanted to invest in a country with a strong economy a lively real estate market and above all that had strong protection of property A country that in addition to protecting tenants also protects homeowners A country where houses can give much higher net returns than in Italy A country with few but clear and precise rules We found all this in the United States Initially we bought houses through organized structures It all seemed fantastic but we realized that something wasn't right So we took the plane to touch the American reality and we decided to invest time and money in training and direct experience in the field We wanted to invest part of our resources to generate monthly income without our direct intervention but always having control over the investment made I confess that sometimes we got burned but every mistake we made us grow to find the best way to achieve our goal which if you're reading this is also your goal With this book we've laid out the road to your goal of real estate investing in the USA We are all different and there is no one size fits all solution But there is the best solution for you Go deeper understand the dynamics of this investment method and then once you get off on the right foot you'll see that the road will be downhill and you too will discover the pleasure of collecting an extra paycheck every month without going to work A pleasant feeling Today more than ever creating a second or third economic income disconnected from our main job is essential We all discovered this during the recent lockdown Work situations can change in a week Having an income disconnected from your job can be a lifeline Invest in your future and that of your family invest in income producing real estate in the USA Buy Real Estate Investing Step by Step now
