

IELTS SPEAKING SAMPLE PDF + VIDEO

Part 1

Ex: Thank you, that's fine. Now in the first part, I'd like to talk about what you do. Do you work or are you student?

Q: Actually, I graduated a few years ago and now I'm in full

Ex: What is your job?

Q: I'm working as a PR & Communication Executive in a TV in this position for a year.

Ex: Why did you choose that job?

Q: It's an interesting story. actually I didn't choose it. It was the same company. So one day, my boss just called me in position. At the first time, I wasn't sure if this would fit my speaker and although I have to stand in front of my staff was convinced, and I took that position and started from it

Ex: Do you enjoy our job?

Q: Yes, absolutely. What I love most about my job is that I have to talk is to create video content everyday, so I have to promote our company's image and reputation. Besides, I have to meet up with my company's partners, different person from who I was, now I'm more confident, stranger which is something that I never did before.

Part 1

Ex: We've been talking about a good law in your country and I'd like to discuss with you in one or two more general questions related to this.

Do people in your country follow rules strictly?

Q: I think this heavily depends on which part of the country we are talking about. In big cities like Hanoi where there is bigger police presence, most people may abide the law to some extent so that they don't have anything to do with the government or the police. However, in less developed regions, people may not follow the rules as strictly as people in the cities because there is a lack of police monitoring. Why should we follow the rules strictly?

In my opinion, rules are usually made to be followed and they are the ways that make us aware of our rights and responsibilities. If we don't follow the rules, people will start doing things in their own way which is very dangerous. For example, when you drive on the road you must follow the traffic rules. If you don't follow them and drive recklessly, consequently, you risk your life. Therefore, I think it is clear why we have to follow the rules strictly in our day to day life.

Ex: What can be done to motivate people so that they abide by the rules and law?

Q: I think most of the people do not want to follow any rules or regulations in their daily lives. It is natural that they will ignore the law. But if the government follows strict measures to make the citizens follow the state rules and it may result in bad consequences and therefore, positive measures should be taken. The government can start by taking some initiatives in rewarding the law abiding citizens with various titles like 'Man of the Year', or similar other events.

On the other hand, I think some rules are quite complicated and difficult to understand. So, in the rules-making process, the government should make the rules as straightforward as possible so that they can be easier to understand and to follow.
