How To Disappear Erase Your Digital Footprint Leave False Trails And Vanish Without A Trace Frank M Ahearn:

How to Disappear Frank Ahearn, Eileen Horan, 2023-09-14 For the first time in paperback we bring you the authoritative and comprehensive guide for people who seek to protect their privacy as well as for anyone who's ever entertained the fantasy of disappearing whether actually dropping out of sight or by eliminating the traceable evidence of their existence. Written by the world's leading experts on finding people and helping people avoid being found, *How to Disappear* covers everything from tools for disappearing to discovering and eliminating the nearly invisible tracks and clues we tend to leave wherever we go. Learn the three keys to disappearing: all about your electronic footprints, the dangers and opportunities of social networking sites, and how to disappear from a stalker. Frank Ahearn and Eileen Horan provide field-tested methods for maintaining privacy as well as tactics and strategies for protecting personal information and preventing identity theft. They explain and illustrate key tactics such as misinformation, destroying all the data known about you, disinformation, creating fake trails, and finally reformation: the act of getting you from point A to point B without leaving clues. Ahearn illustrates every step with real-life stories of his fascinating career: from undercover work to nabbing thieving department store employees to a stint as a private investigator and later as a career skip tracer who finds people who don't want to be found. In 1997, when news broke of President Bill Clinton's dalliance with a White House intern, Ahearn was hired to find her. When Oscar statuettes were stolen in Beverly Hills, Ahearn pinpointed a principal in the caper to help solve the case. When Russell Crowe threw a telephone at a hotel clerk in 2005, Ahearn located the victim and hid him from the media. An indispensable resource not just for those determined to become utterly anonymous but also for just about anyone in the brave new world of online information, *How to Disappear* sums up Ahearn's dual philosophy: Don't break the law but know how to protect yourself.

The Little Black Book of Skip Tracing Frank Ahearn, 2015-05-06 Privacy Expert Frank M Ahearn took a short hiatus from his disappearing business and went undercover as a female skip tracer to see if he could locate people without breaking the law Most of the pretext and social engineering tactics in this book are illegal In non technical language that means do not be a dumbass and try this stuff at home from work on Skype with a prepaid cell phone or through a psychic medium If you are caught utilizing these tactics some bad mojo will happen That is my disclaimer

Excerpt from The Little Black Book Of Skip Tracing I mentioned that another way to pretext a subject of a landline is to do so as a telephone repair employee Hi this is Joe Momma from Dingle Falls Telephone Repair I am working on the phone lines and your phone service might be disconnected for about five minutes Fear not it will be immediately repaired Some people are cool about it and others are huge dicks rambling off they need their phone service Yea yeah yeah I wait a few minutes and dial them back and when they answer I hold down the pound button as it cranks out that unpleasant sound in their ear I do this a few times depending how much of a schmuck the subject was during the pretext call After about five minutes I call the subject back and explain all is fixed and there will be no interruption of service Before I hang up I hit them with the second part of the pretext I need you to confirm your building number and zip code And Please spell the name correctly Note I do not ask what the building number is but confirm the building number By saying confirm it automatically implies that I have the information Most people fall for the pretext but there is always one unpleasant crayon in the box You work for the phone company you should know my address If someone were being a dick about confirming the information I would ease out of the call and tell them no problem From the multiple prepaid cell phones I call the subject back using different voices and requesting various styles of pizza The subject would soon realize that their phone number is crossed with the local pizza shop I call the pain in the ass subject back and act as if I am calling the pizza shop to confirm all is well with their services The subject usually blew their stack and blasted me for screwing up their phone line This was a good thing Sorry but I am

showing this line belonging to Pizza Haven You will need to dial 611 and report the issue This totally infuriated the subject You are repair you broke it now fix it My response was polite I would if I could but I can t I show the number 867 5309

belonging to Pizza Haven on Broadway Then came the roar No you moron my name is Kurt Duesterdick and my address is 1313 Webfoot Walk Duckburg Calisota My apologies I will repair immediately Pretext is like a prompt system you need to create the right buttons to push
