

A detailed, colorful illustration of intestinal villi, showing the internal structure of the small intestine. The villi are depicted as finger-like projections, each with a central blood vessel (artery and vein) and a network of capillaries. The illustration is rendered in a style that combines scientific accuracy with artistic flair, using a palette of blues, greens, yellows, and reds against a dark background. The villi are arranged in a somewhat irregular, overlapping pattern, giving a sense of depth and texture. The overall effect is both educational and aesthetically pleasing.
