International Legal Materials, 2007-05      Global Business Law John Warren Head, 2007. This text with its accompanying documentary Handbook for Global Business Law substantially revises and updates the very popular first edition of Global Business Law by David Frisch and Raj Bhala. In doing so this second edition provides students of international business law especially in law schools but also in practice with a clear story line that addresses key questions facing international business lawyers as they advise clients on the three main forms of international business: commercial sales, licensing, franchising and foreign direct investment. In particular the new edition provides helpful chapter overviews and Study Questions to highlight key elements to be drawn from the material. These new features together with a streamlining of case reports and secondary materials, a modest restructuring of the topics presented, additional illustrations and sample forms and an updating from the earlier edition combine to make this text a clean and comprehensive introduction to the principles and practice of global business law.
