*Hubble, Humason and the Big Bang* Ron Voller, 2021-10-28 The story of Hubble and Humason is one for the ages and in particular the Cosmic Age In this compelling book science writer Ron Voller digs deep into how and why the two scientists continued to investigate their theory of universal expansion in the face of persistent doubt contrary theories and calamitous world events The evolution of this dynamic duo s tenuous friendship and professional partnership is in many ways as intriguing as their groundbreaking work on the evolution of the universe The book therefore traces their lives from their childhoods into their burgeoning careers revealing how a World War and their own personal differences stood in the way of initial cooperation It then shows how despite all this the two opposites eventually came together in the pursuit of something far greater than themselves This grand story is inextricably interwoven with that of Albert Einstein Willem de Sitter and other great physicists of the era all of whom took part in the staggering quest to make sense of the Big Bang and what followed Edwin Hubble has often been considered as an island of sorts a lone wolf of astronomy But Voller s book shows otherwise as he examines Milt Humason s essential contributions to our understanding of the expanding universe Daniel Lewis Dibner Senior Curator History of Science Technology The Huntington Library *The Comprehensive Guide to Science and Faith* William A. *Faith and Science* Kenneth D. Keathley, 2024-09-15

In *Faith and Science A Primer for a Supernatural World* Kenneth Keathley argues that rather than acting as opposing forces scientific inquiry and the Christian faith go hand in hand In his mission to offer a fully integrated theology of science Keathley begins with the Lordship of Christ and the sufficiency of Scripture He characterizes the study of science as a providential gift and a worthy vocation with Christian origins Keathley then examines the twin challenges of scientism and fideism observing their deficiencies as comprehensive worldviews After defending Galileo as a scientist theologian Keathley offers readers a model for how to integrate their Christian faith with their scientific pursuits *Faith and Science* provides a ready primer for students and everyday Christians to challenge their preconceptions about faith and science and to develop a more robust worldview to guide their examinations of our supernatural world The Christ in Everything series exists to demonstrate how Christ is connected to all of life The primers in this series serve as introductions to important cultural topics including science freedom politics beauty and the nature of truth Each book offers a biblical and theological framework from which to view and approach the topic at hand followed by examples for how to walk in the way of Jesus in that cultural domain

*Science at the Doorstep to God* Robert Spitzer, 2023-10-23 Today there is more science based evidence for God the soul and life after death than ever before Then why are scores of people turning to unbelief because of science The answer is simple they do not know the science *Science at the Doorstep to God* presents in depth the latest evidence to turn the rising tide of unbelief Father Robert Spitzer S J synthesizes eight recent studies confirming an intelligent creator of physical reality as well as a transphysical soul capable of surviving bodily death This is the most comprehensive scientific treatment of God and the afterlife to date It combines natural scientific method metaphysical method medical studies anthropological and genetics studies and phenomenological descriptions showing how each distinct method and data set reinforces the others It is critical for the Church to learn and share the fruits of this research and again to demonstrate the profound complementarity between the Catholic faith and science Through reason we can come to see not only the great intelligence of the Creator but also signs of his love goodness and glory
