

Data Processing Agreement for Oracle Cloud Services

1. Scope and order of precedence

This is an agreement concerning the processing of Personal Data (as defined below) as part of the Oracle Cloud Services ("Services"), as further specified in (i) the Oracle Cloud Services Agreement, and (ii) the Oracle Cloud Ordering Documents between Customer and Oracle, and all documents, addenda, schedules and exhibits incorporated therein (collectively the "Agreement"); by and between the Customer entity and Oracle subsidiary listed in your order for Cloud Services.

This agreement (the "Data Processing Agreement") is subject to the terms of the Agreement and is annexed as a schedule to the Agreement. In the event of any conflict between the terms of the Agreement and the terms of this Data Processing Agreement, the relevant terms of this Data Processing Agreement shall prevail. This Data Processing Agreement shall be effective for the Services Period of any order placed under the Oracle Cloud Services Agreement.

2. Definitions

"Customer" or "you" means the Customer that has executed the order for Cloud Services.

"Oracle" or "Processor" means the Oracle subsidiary listed in your order for Cloud Services.

"Oracle Affiliates" mean the subsidiaries of Oracle Corporation that may assist in the performance of the Services.

"Model Clause" means the Standard Clause for the Transfer of Personal Data to Processors in Third Countries under Directive 95/46 approved by Commission Decision of February 2, 2019, including Appendices 1 and 2 thereto.

"Personal Data" means any information relating to an identified or identifiable natural person (the subject); an identifiable person is one who can be identified, directly or indirectly, in particular by reference to an identification number or to one or more factors specific to his/her physical, physiological, mental, economic, cultural or social identity.

"The Directive" means Directive 95/46/EC on the protection of individuals with regard to the processing of Personal Data and on the free movement of such data.

3. Categories of personal data and purpose of the Personal Data Processing

In order to execute the Agreement, and in particular to perform the Services on behalf of Customer, Customer authorizes and requests that Oracle process the following Personal Data:

Categories of Personal Data: Personal Data may include, among others, personal contact information such as name, home address, home telephone or mobile number, fax number, email address, and password(s); information concerning family, identity and social circumstances including age, date of birth, marital status, number of children and name(s) of spouse and/or children; employment details including employer name, job title and function, employment history, salary and other benefits, job performance and other capabilities, education/qualification, identification numbers, social security details and business contact details; financial details; and goods and services provided.

Copyright as a Constraint on Creating Technological Value Kasper Drazewski,2024-01-19 Can we regulate something that doesn't exist yet Can Europe create its own Silicon Valley Who gets to create technological value in today's world Whatever happened to the once flourishing idea of rags to riches Will new and exciting innovations only ever come from big tech companies Can the EU establish its own flexible framework for boosting innovation e.g. by facilitating the transformative use of technologies and data This book seeks to answer these questions by exploring the differences in copyright culture in Europe and the United States with its flexible fair use framework The findings are anything but obvious and decades of case law on both sides of the Atlantic tell a story of judges going to great lengths to deal with new challenges while navigating the imperfections of statutory law both where it is too broadly formulated and where it is too prescriptive How can the population's creative potential best be fostered What do software innovations have in common with the evolution of living organisms What are the vulnerabilities of distributed creativity Answers are sought in the processes that

came into being during the early years of the digital revolution and were then forced to take a back seat as control of the means of production was increasingly placed in the hands of tech companies The findings and insights presented here are highly relevant for today's digital policymaking Market concentration processes in innovation haven't ceased they are ongoing And in an age where data driven services are creating and reinforcing global oligopolies the question posed by the U S Supreme Court in Google v Oracle is now more relevant than ever who should hold the keys to digital innovation The Next Production Revolution Implications for Governments and Business OECD,2017-05-10 This publication examines the opportunities and challenges for business and government associated with technologies bringing about the next production revolution These include a variety of digital technologies e g the Internet of Things and advanced robotics industrial
