Adeel Asghar, Shahid Kalim Khan, 2019-10-14 Master s Thesis from the year 2009 in the subject Business economics Market research grade 3 5 M lardalen University School of Sustainable Development of Society and Technology course MS International Marketing language English abstract The topic of this dissertation comes from these two areas internationalization of small and medium enterprises SMEs and international entrepreneurship When looking into SMEs internationalization research there is lack of material about pre internationalization stage of SMEs It is also very critical that firms should have theoretical guidelines to follow in early internationalization stage when they have no or very little international experience SMEs are well known for their innovative and risk taking approach This study aims at providing them with a strategic framework or method to analyze the marketability of their products or services and exploit internationalization opportunities It also focuses on helping them in reducing their risks linked with cross border business opportunities This research is performed through case study method A new conceptual model has been developed by integrating relevant standard approaches within the field of research This model has been further explained by implementing it on case company Internationalization of SMEs in general has become a very famous topic in the world This is the area which is developing further at present Plenty of research has been performed from different perspectives and angles International Entrepreneurship is an emerging area when it is yet struggling for standard definition International entrepreneurship theory and SMEs are very much connected areas While making a study related to internationalization of SMEs we cannot neglect the importance of entrepreneurs which is widely recognized as the main variables in SMEs internationalization Developing theoretical and conceptual model by integrating different existing theories is very usual in SMEs internationalization research area This may be due the reason that there is lack of standard theories or approaches in

this area so there is an absolute need for such efforts Motivated by similar drive authors aimed to create customized theoretical framework for analysis with the help of different standard approaches in the field

Working Papers on Comparative Legislative Studies Lawrence D. Longley,1994 *The Customer Journey in Omnichannel Retail. An exploratory requirements analysis for a customer journey modelling and analysis tool* Marie Klose,2019-03-01 Master s Thesis from the year 2018 in the subject Business economics Offline Marketing and Online Marketing grade 1 7 language English abstract The customer journey is a central topic for all retailers to consider to be able to successfully manage customer experience and to thereby ensure the survival of a business Hence managing and influencing customer journeys has been of importance since the emergence of retailing However to successfully manage customer journeys has become increasingly complex with the development of omnichannel retail Classical techniques to analyze and influence customer journeys are insufficient for today s customers who are seamlessly using multiple devices and switching between different channels during their purchase journey while expecting a uniform and personalized customer experience This research paper studies the topic of customer journey analysis in omnichannel retail and discusses which requirements need to be fulfilled to successfully model analyze and influence the respective customer journeys By conducting a systematic literature review it was proven that a tool is needed to model and analyze individual customer journeys in omnichannel retail in real time making use of online and offline customer data Through the method of semi structured interviews requirements that are related to developing and deploying such a tool were collected in an exploratory way This is from scientific importance as until now few research has addressed the topic of ways to model and analyze customer journeys in omnichannel retail Additionally with rising customer expectations and an increased competition between retailers the importance of successfully managing customer journeys is indispensable in retailing The findings of this paper imply a high probability of an increasing need to deploy a customer journey modelling and analysis tool by omnichannel retailers However further in depth analysis and specification of characteristics that this tool requires to fulfill are needed to successfully develop it
