Sutherland, 2024-08-29 This textbook provides a lively introduction to the fast paced and multi faceted discipline of social media management with international perspectives AI approaches and tools to enhance the learning experience Aside from focusing on practical application the textbook takes readers through the process of strategy development and implementation ethical and accurate content curation and strategic content creation Combining theory and practice *Strategic Social Media Management* teaches readers how to take a strategic approach to social media from organisational and business perspectives and how to measure results Richly supported by robust and engaging pedagogy and case studies it integrates public relations marketing and advertising perspectives and examines key issues including risk ethics privacy consent copyright and crisis management Reflecting the demands of contemporary practice advice on self care is also provided helping to protect emerging Social Media Managers from the negativity they can experience online By the end readers will be able to develop a social media strategy understand accurate and relevant content curation and create engaging social media content that tells compelling stories connects with target audiences and supports strategic goals and objectives This is an ideal textbook for students learning social media strategy marketing and management at undergraduate level It is also essential reading for business owners marketing public relations advertising and communications professionals looking to hone their social media skills The first edition of this textbook won a Book Excellence Award a Silver International Stevie Award for Best Business Book and was named in the Best 100 Public Relations eBooks of All Time by the Book Authority

[Management Fundamentals](#) , [Algorithms for the People](#) Josh Simons, 2025-07-08 How to put democracy at the heart of AI governance Artificial intelligence and machine learning are reshaping our world Police forces use them to decide where to send police officers judges to decide whom to release on bail welfare agencies to decide which children are at risk of abuse and Facebook and Google to rank content and distribute ads In these spheres and many others powerful prediction tools are changing how decisions are made narrowing opportunities for

the exercise of judgment empathy and creativity In Algorithms for the People Josh Simons flips the narrative about how we govern these technologies Instead of examining the impact of technology on democracy he explores how to put democracy at the heart of AI governance Drawing on his experience as a research fellow at Harvard University a visiting research scientist on Facebook s Responsible AI team and a policy advisor to the UK s Labour Party Simons gets under the hood of predictive technologies offering an accessible account of how they work why they matter and how to regulate the institutions that build and use them He argues that prediction is political human choices about how to design and use predictive tools shape their effects Approaching predictive technologies through the lens of political theory casts new light on how democracies should govern political choices made outside the sphere of representative politics Showing the connection between technology regulation and democratic reform Simons argues that we must go beyond conventional theorizing of AI ethics to wrestle with fundamental moral and political questions about how the governance of technology can support the flourishing of democracy
