Algorithms of Armageddon George Galdorisi, Sam J Tangredi, 2024-03-12 It is unclear if U S policy makers and military leaders fully realize that we have already been thrust into an artificial intelligence AI race with authoritarian powers Today the United States peer adversaries China and Russia have made clear their intentions to make major investments in AI and insert this technology into their military systems sensors and weapons Their goal is to gain an asymmetric advantage over the U S military The implications for our national security are many and complex Algorithms of Armageddon examines this most pressing security issue in a clear insightful delivery by two experts Authors George Galdorisi and Sam J Tangredi are national security professionals who deal with AI on a day to day basis in their work in both the technical and policy arenas Opening chapters explain the fundamentals of what constitutes big data machine learning and artificial intelligence They investigate the convergence of AI with other technologies and how these systems will interact with humans Critical to the issue is the manner by which AI is being developed and utilized by Russia and China The central chapters of the work address the weaponizing of AI through interaction with other technologies man machine teaming and autonomous weapons systems The authors cover in depth debates surrounding the AI genie out of the bottle controversy AI arms races and the resulting impact on policy and the laws of war Given that global powers are leading large scale development of AI it is likely that use of this technology will be global in extent Will AI enabled military weapons systems lead to full scale global war Can such a conflict be avoided The later chapters of the work explore these questions point to the possibility of humans failing to control military AI applications and conclude that the dangers for the United States are real Neither a protest against AI nor a speculative work on how AI could

replace humans Algorithms of Armageddon provides a time critical understanding of why AI is being implemented through state weaponization the realities for the global power balance and more importantly U S national security Galdorisi and Tangredi propose a national dialogue that focuses on the need for U S military to have access to the latest AI enabled technology in order to provide security and prosperity to the American people **Assisting Intelligence** Mike P O'Brien,2024-12-09 Assisting Intelligence How to Build Authentic in the Age of AI A Golden Retriever a 15th Century Printer and a Generative AI Model walk into a bar No this isn t the setup of a joke or AI hallucination It s the beginning of an extraordinary journey through time and technology Dive into the age of AI to Ignite Ideas Learn how to craft prompts that spark innovation Preserve Authenticity Discover how to use AI to protect your unique voice and brand Expand Knowledge Explore the power of AI to enhance learning and understanding A Guide to the AI Revolution Practical and complete this playbook offers A Primer on AI Onboard with the basics essential tips and techniques Master Prompts Learn the art of crafting effective prompts Preserve Your Voice How to harness AI without compromising your individuality Tell your stories and explore alternative perspectives on AI s capabilities Iterate with AI Adopt an Agile AI methodology for knowledge creation Define Your AI Tell your stories and explore alternative perspectives on AI s capabilities Your AI Playbook Equip yourself with AI expertise with guided practice Embrace the Future Informed by the Past to Build Authentic Join us on this journey to unlock the full potential of AI By understanding its capabilities and limitations we can build a future where AI assists our intellectual pursuits Discover how to build authentic knowledge by harnessing AI s Assisting Intelligence **Amnesty International** ,2004 Computer Gaming World ,1995 *MacUser* ,1988-04 Compute ,1990-06 **L'Espresso** ,2009 Politica cultura economia varies
