How To Start Ai Website Builder In The United States:

Deploying Artificial Intelligence to Achieve the UN Sustainable Development Goals Arthur Guseni Oliver

Mutambara, 2025-07-01 This book provides research insights into how Artificial Intelligence AI can be used to achieve the UN's Sustainable Development Goals SDGs 17 interconnected goals designed to address the world's most pressing challenges by 2030. It reviews the SDGs and discusses why progress has been mixed and uneven across different countries, regions, and goals. The book posits that attaining the SDGs will depend on enhanced global cooperation, increased funding, improved infrastructure, public-private partnerships, regional/continental integration, addressing the climate crisis, inclusive economic transformation, and visionary leadership. More specifically, the publication advocates leveraging innovative and transformative technologies, particularly the deployment of AI. The research acknowledges the risks of digital imperialism, data colonialism, and technological exclusion, especially in emerging and least industrialised economies. Hence, in deploying AI to achieve the SDGs, the book puts a premium on decoloniality in AI systems and democratising AI technology. Provides a critique of the current SDGs approach by reframing the goals as a comprehensive risk assessment of humanity's most pressing threats in the 21st century. Features broad and holistic interventions to accelerate the attainment of the SDGs. Provides a comprehensive but accessible introduction to AI concepts and advanced innovations such as AlphaFold, ChatGPT 4, DeepSeek R1, Grok 3, and autonomous vehicles, drones, and driverless cars. Discusses the AI strategies of leading economies and assesses the impact of AI on geopolitics. Provides a comprehensive critique of global AI efforts by the UN and African Union while proffering alternative paradigms and frameworks. Presents the enablers, drivers, and strategic framework of AI deployment to achieve the SDGs. Develops and presents details of six distinct but related components of a novel Strategic Framework for developing and adopting AI: Vision, Strategy, Policy, Governance, Legislation, Regulations, and Implementation Matrix. Outlines specific ways that AI can be deployed to achieve each of the 17 SDGs and reviews seven countries' experiences. Explores an innovative, forward-looking, and technology-driven framework for equitable global socio-economic transformation to succeed the SDGs post 2030.

AI Development and the 'Fuzzy Logic' of Chinese Cyber Security and Data Laws Max

Parasol, 2021-12-16 The book examines the extent to which Chinese cyber and network security laws and policies act as a constraint on the emergence of Chinese entrepreneurialism and innovation. Specifically, how the contradictions and tensions between data localisation laws as part of Network Sovereignty policies affect innovation in artificial intelligence AI. The book surveys the globalised R&D networks and how the increasing use of open-source platforms by leading Chinese AI firms during 2017-2020 exacerbated the apparent contradiction between Network Sovereignty and Chinese innovation. The drafting of the Cyber Security Law did not anticipate the changing nature of globalised AI innovation. It is argued that the deliberate deployment of what the book refers to as 'fuzzy logic' in drafting the Cyber Security Law allowed regulators to subsequently interpret key terms regarding data in that Law in a fluid and flexible fashion to benefit Chinese innovation.

Artificial

Intelligence and Machine Learning for Business for Non-Engineers Stephan S. Jones, Frank M. Groom, 2019-11-22 The next big area within the information and communication technology field is Artificial Intelligence AI The industry is moving to automate networks cloud based systems e g Salesforce databases e g Oracle AWS machine learning e g Amazon Lex and creating infrastructure that has the ability to adapt in real time to changes and learn what to anticipate in the future It is an area of technology that is coming faster and penetrating more areas of business than any other in our history AI will be used from the C suite to the distribution warehouse floor Replete with case studies this book provides a working knowledge of AI s current and future capabilities and the impact it will have on every business It covers everything from healthcare to warehousing banking finance and education It is essential reading for anyone involved in industry **Social Media** Regina Luttrell, 2025-08-21 Reflecting the latest technological innovations and challenges of the social media landscape the fifth edition of Social Media How to Engage Share and Connect helps students build success in integrated PR practice Regina Luttrell presents a thorough history of social media and pioneers of the field within chapters on specific subjects such as content sharing crisis communication ethics sticky social media and strategic campaigns This book will become your go to reference guide for all things social media related as it applies to public relations and the everyday duties of PR professionals New features of the fifth edition include Chapter 4 Generative AI covers the technology s uses and implications for strategic communication Chapter 7 Storytelling in Social Media emphasizes the art of crafting narratives that resonate with audiences Sticky Social Media boxes apply chapter concepts to real brand cases ROSTIR Research Objectives Strategy Tactics Implementation Reporting Campaigns in Action boxes feature case studies of strategic integrated PR social media and digital campaigns Storytelling Communicate Captivate Connect boxes provide insight into how storytelling enhances communication strategies Online resources bloomsbury pub luttrellsocialmedia5e include lecture slides and other teaching materials for instructors and students *Career Services and Workforce Development Centers for Libraries* Raymond Pun, Arpine Eloyan, Michael R. Oppenheim, 2024-11-18 With the rise of unemployment increased career growth opportunities and changing workforce demographics libraries can support job seekers in several ways Career Services and Workforce Development Center for Libraries A Guide serves as a resource for libraries interested in creating supporting or enhancing their career services economic and workforce development programs for their communities Going beyond collection development and hosting job fair activities the book covers teaching resources and interviews from library leaders supporting workforce development initiatives or collaborations ideas on how libraries can be embedded in the workforce development community by providing a series of job readiness activities programs and services how academic and public librarians can support their users exploring career opportunities and development examines employment trends and resources such as generative artificial intelligence to dive into these issues so libraries can stay active in identifying new skill development and technologies to support their communities How can one start a career services or job center program in their libraries What

are specialized career services in libraries being offered How can libraries advocate for funding for workforce development Divided into five chapters each chapter addresses these questions and provides a series of examples ideas and resources for readers to consider replicating in their own libraries If you are looking for ideas for your libraries to support a community of job seekers this is the book for you **The Raging 2020s** Alec Ross,2025-09-23 In the face of unprecedented global change New York Times bestselling author Alec Ross proposes a new social contract to restore the balance of power between government citizens and business in The Raging 2020s For 150 years there has been a contract Companies hold the power to shape our daily lives The state holds the power to make them fall in line And the people hold the power to choose their leaders But now this balance has shaken loose As the market consolidates the lines between big business and the halls of Congress have become razor thin Private companies have become as powerful as countries As Walter Isaacson said about Alec Ross s first book The Industries of the Future The future is already hitting us and Ross shows how it can be exciting rather than frightening Through interviews with the world s most influential thinkers and stories of corporate activism and malfeasance government failure and renewal and innovative economic and political models Ross proposes a new social contract one that resets the equilibrium between corporations the governing and the governed **J@pan, Inc** ,1999
