Soft Computing: Theories and Applications Rajesh Kumar,Ajit Kumar Verma,Om Prakash Verma,Jitendra Rajpurohit,2025-10-02 The book is a collection of high quality papers presented at the International Conference on Soft Computing Theories and Applications SoCTA 2024 held at Malaviya National Institute of Technology MNIT Jaipur Rajasthan India during 27 29 December 2024 This book focuses on soft computing and how it can

be applied to solve real world problems arising in various domains ranging from medicine and healthcare to supply chain management image processing and cryptanalysis The book offers valuable insights into soft computing for teachers and researchers alike the book inspires further research in this dynamic field **PC AI** ,1996 **Deep Fakes** Michael Filimowicz,2022-03-01 Deep Fakes Algorithms and Society focuses on the use of artificial intelligence technologies to produce fictitious photorealistic audiovisual clips that are indistinguishable from traditional video media For over a century the indexical relationship of the photographic image and its related media of film and video to the scene of capture has served as a basis for truth claims Historically the iconicity of these images has featured a causal traceback to actual light rays in a particular time and space which were fixed by chemical reactions or digital sensors to the resultant image Today photorealistic audiovisual media can be generated from deep learning networks that sever any connection to an actual event Should society instantiate new regimes to manage this new challenge to our sense of reality and the traditional evidential capacities of the mechanical image How do these images generate information disorder while also providing the basis for legitimate tools used in entertainment and creative industries Scholars and students from many backgrounds as well as policymakers journalists and the general reading public will find a multidisciplinary approach to questions posed by deep fake research from Communication International Studies Writing and Rhetoric **Intelligent Systems Report** ,1992-11 *University of Illinois Film and Video* University of Illinois Film Center,1988 **Next-Generation Enterprise Security and Governance** Mohiuddin Ahmed,Nour Moustafa,Abu Barkat,Paul Haskell-Dowland,2022-04-19 The Internet is making our daily lives as digital as possible and this new era is called the Internet of Everything IoE The key force behind the rapid growth of the Internet is the technological advancement of enterprises The digital world we live in is facilitated by these enterprises advances and business intelligence These enterprises need to deal with gazillions of bytes of data and in today s age of General Data Protection Regulation enterprises are required to ensure privacy and security of large scale data collections However the increased connectivity and devices used to facilitate IoE are continually creating more room for cybercriminals to find vulnerabilities in enterprise systems and flaws in their corporate governance Ensuring cybersecurity and corporate governance for enterprises should not be an afterthought or present a huge challenge In recent times the complex diversity of cyber attacks has been skyrocketing and zero day attacks such as ransomware botnet and telecommunication attacks are happening more frequently than before New hacking strategies would easily bypass existing enterprise security and governance platforms using advanced persistent threats For example in 2020 the Toll Group firm was exploited by a new crypto attack family for violating its data privacy where an advanced ransomware technique was launched to exploit the corporation and request a huge figure of monetary ransom Even after applying rational governance hygiene cybersecurity configuration and software updates are often overlooked when they are most needed to fight cyber crime and ensure data privacy Therefore the threat landscape in the context of enterprises has become wider and far more challenging

There is a clear need for collaborative work throughout the entire value chain of this network In this context this book addresses the cybersecurity and cooperate governance challenges associated with enterprises which will provide a bigger picture of the concepts intelligent techniques practices and open research directions in this area This book serves as a single source of reference for acquiring the knowledge on the technology process and people involved in next generation privacy and security
