AI and the Creative Economy Richard Boateng,Sheena Lovia Boateng,Thomas Anning-Dorson,Obed Kwame Adzaku Penu,2025-05-23 In recent years the profound impact of artificial intelligence AI on fostering new forms of entrepreneurship has become increasingly evident Entrepreneurs worldwide are harnessing the

capabilities of AI to develop innovative solutions and create businesses that address pressing challenges. Despite the growing recognition of AI's potential, there exists a crucial need to deepen understanding and awareness surrounding how individuals are leveraging AI to establish novel ventures. Many entrepreneurs are pioneering initiatives that deploy AI technologies to tackle complex problems. This challenge revolves around the imperative to explore and comprehend the diverse ways in which AI is driving the emergence of new businesses, solving real-world problems and reshaping the entrepreneurial landscape. It underscores the necessity for entrepreneurs, researchers, and the wider community to grasp the transformative role of AI in fostering innovation and enabling the creation of businesses dedicated to addressing societal issues. Addressing this challenge will contribute to a more comprehensive understanding of the synergy between AI and entrepreneurship, paving the way for informed and impactful ventures that leverage the full potential of AI technologies. In this respect, the purpose of this book is to offer an in-depth exploration of the intersection between AI and entrepreneurial ventures. The book aims to provide a contemporary and thorough analysis of how AI is playing a pivotal role in shaping new forms of entrepreneurship across various industries. It seeks to illuminate the ways in which entrepreneurs are leveraging AI technologies to drive innovation, address challenges, and create businesses that contribute to societal progress. Focusing on the intersection of AI and the creative economy, this book examines the role of AI in content creation, social media, and influencer entrepreneurship. It provides a snapshot of current research, identifies gaps in knowledge, and presents case studies of content creators who have successfully integrated AI into their workflows. This book highlights the impact of AI on various forms of content creation, including educational, lifestyle, health, and entertainment content. It also includes a comprehensive syllabus for training entrepreneurs on leveraging AI for content creation, emphasizing the balance between technological advancements and maintaining authenticity.

Advertising in the Digital Age Sevil Yesiloglu, Joyce Costello, 2024-04-09 Advertising is everywhere. Whether you realise it or not, it's there when you watch your favourite Netflix show, when you scroll through Instagram, and when you search on Google. What's more, advertisers are becoming more savvy than ever, using new technologies to target adverts to you specifically. So what are we to make of all this? This book will equip you with a thorough understanding of today's media environment and how online advertising differs from traditional offline models. In an age of influencers, big data, AI, and social media, the world of advertising looks very different from how it did a generation ago. You will learn not only about various types of advertising but also about its impact on viewers, from our buying habits to possible harm. Tying theory and concepts to practice, this volume is the ideal complement to courses in advertising, digital media, and communication and will enable you to form a clear picture of the reality of working across promotional media industries.

The Implications of new Technology, particularly Artificial intelligence (AI) for International Politics Malam Wasai, 2023-09-18 Submitted Assignment from the year 2023 in the subject Politics General and Theories of International Politics. Language: English. Abstract: Greater scrutiny is necessary because AI will have a

significant impact on international relations such as putting new topics on the international agenda challenging geostrategic relations serving as a tool for diplomats and negotiators and creating new opportunities and concerns about protecting human rights Scholars and diplomats have found it helpful to think about the different things that affect international relations by breaking them down into three levels of analysis individual state and international State level analysis examines the foreign policy behavior of states in terms of state characteristics For example some scholars say that all democracies behave a certain way they don t fight with other democracies Artificial intelligence impact governance As AI continues to evolve and permeate various aspects of our lives its implications for AI and how does it impact businesses AI artificial intelligence refers to machines that can perceive intelligence synthesize and infer information It is the science and engineering of intelligent machines that can mimic human intelligence to perform tasks and then on the information they collect improve themselves based AI is designed to significantly enhance human capabilities and contributions making it a valuable business asset
