Integrating Micro-Credentials With AI in Open Education Durak, Gürhan, Çankaya, Serkan, 2024-11-15 Micro credentials which offer smaller certifications for specific skills and competencies are becoming relevant in today's job market. When combined with artificial intelligence, these credentials can be personalized and tailored to individual learners, assessing their strengths and areas for improvement. AI can also facilitate the creation and management of these micro credential programs, ensuring they meet industry demands and educational standards. Further exploration into this area may help enhance learner engagement while providing a flexible, accessible pathway for individual skill development. Integrating Micro Credentials With AI in Open Education provides current insights into the rapidly evolving field of micro credentials with a particular focus on emerging technologies, processes, and applications. It offers an extensive exploration of micro credentials from various perspectives, including their design, development, application in different educational and professional contexts, and integration with cutting-edge technologies like AI and MOOCs. This book covers topics such as distance learning, higher education, and learning analytics, and is a useful resource for computer engineers, education professionals, curriculum designers, scientists, academicians, and researchers. *Proceedings of the International Conference on Education Research*

Reza Hosseini, **Innovative Methods in Korean Language Teaching** Nicola Frascini, Jieun Kiaer, 2024-12-30 Innovative Methods in Korean Language Teaching showcases research-based and experience-based contributions and reflections on the potential of adopting technological and non-technological innovations to promote Korean language students' learning. The chapters included in this book consider a wide range of innovative technologies and approaches such as large language models, virtual reality solutions, metaverse platforms, multimodal teaching, and critical pedagogy, and represent a variety of geographical learning contexts from North America to Europe, from Korea to the broader Asia Pacific region. Overall, these contributions make the case for embracing new technologies instead of banning them and for accepting pedagogical shifts that take into consideration contemporary understandings of the communication teaching and learning processes. This book will be of interest to graduate students, researchers, and practitioners of Korean language education and to those working on language teaching and learning in general, to inform future teaching practices through careful consideration of contemporary technologies and teaching approaches. **Sustaining Creative Collaboration in Student**

Virtual Teams in Higher Education: Resources, Norms and Protocols, and Continual Assessment and Learning Nemiro, Jill E., 2025-07-23 As remote and hybrid work continue to define the modern professional landscape, the ability to collaborate effectively in virtual teams has become an essential skill.
