**Advanced Management Accounting, 3/e** Robert S. Kaplan, Anthony A. Atkinson, 1998

Profit Planning Peter Harris, 2013-03-31 A complete guide to using key managerial accounting techniques for planning controlling and improving profitability at the business property level the cutting edge of routine decision making Extended edition now includes a major new section Step by Step Quantitative analysis of cost functions in hotels restaurants

**Balancing the Value-Based Corporate Scorecard** Mario Schmidt, 2005-07-01 Inhaltsangabe Introduction Today operating companies are exposed to a whole series of influence factors The globalization and deregulation of capital markets the end of capital and exchange controls new challenges on the information technology sector more liquid securities markets new trends with regard to investment decisions especially for institutional investors represent only some of these factors The competition around investment capital moves more to the foreground As a consequence of this fact is mentioned that the orientation is specified at the shareholders Thus a focusing is carried out on the profit of the shareholders With other words a culture of shareholder value has developed A special meaning befits the corporate value with regard to the shareholder value The corporate value represents the result of the investments of the shareholders Therefore the effort to increase the corporate value is mirrored by the claims of the shareholders In the recent years the term Value Based Management as synonymous has become noted

for a whole series of approaches to increase the corporate value Value Based Management focuses the view on the tools which are necessary to produce performance and value It means that everything every process and every part of a company has to be oriented in creating value This diploma thesis therefore will analyze how corporate value can be created which activities are necessary and how it can be measured Furthermore it will be represented how this process can be embedded in an integral approach Therefore in Chapter 2 will be explained main aspects of the Value Based Management In connection with this special attention is given to the components of value The meaning and problems of the intangible assets shall particularly be stressed in section 2 1 2 A general analysis of the process of value creation follows it in section 2 1 3 A further aspect of Value Based Management is the measurement of the results of the company s activities Therefore a bundle of different measures can be used As examples for this shall be mentioned the Cash Flow Return On Investment CFROI the Economic Profit EP the Added Value VA or the Economic Value Added EVA The CFROI approach was developed by the Boston Consulting Group The internal rate of return of an investment can be expressed with the CFROI The Economic Profit is a development of the McKinsey Company Inc and is explained by Copeland *From Cost to Performance Management* Catherine Stenzel, Joe Stenzel, 2003-07-25 Every manager is responsible for cost and performance management in one form or another This book provides an unbiased survey and explanation of the cost and performance management approaches and methods currently available for application in business Topics covered include cost management and performance management measurement options including ABC M Total Quality Management Supply Chain Management and Balanced Scorecard Contrasts with managerial accounting textbooks which tend to be conceptual and theoretical and not easily adaptable to practical situations Assists readers in choosing the best approach or blend of methods to address specific business problems Supports learning through real world applications Provides a complete presentation of field tested cost management and performance management measurement options Japanese Cost Management Yasuhiro Monden, 2000 This book deals with the systems of cost reduction that originated in Japan These are mostly new systems that did not exist in western practices before they were utilized in Japan The book also presents the Japanese ways of carrying out the globally popular cost reduction practices 1 It describes the strategic cost management conducted by top management through alliances between companies and or between government and industry 2 It shows the functional cost reduction systems along the various phases of the product life cycle as follows R D Product development Manufacturing Administration and indirect operations 3 It conducts some humanistic or behavioral aspects of Japanese cost reduction systems
