**Politics and the Media in Twenty-First Century Indonesia** Krishna Sen, David Hill, 2010-11-01 Every political aspirant and activist knows the media are important But there is little agreement on how an increasingly diversified media operate in post authoritarian transitions and how they might promote or impede the pathways to a sustainable liberal democracy in the 21st century This book examines the role of the media during Indonesia s longest experiment with democratisation It addresses two important and related questions how is the media being transformed both in terms of its structure and content by the changing political economy of Indonesia after the fall of Suharto And what is the potential impact of this media in enabling or hampering the development of democracy in Indonesia The book explores the relation between the working of democratisation by examining the role of ethnic identity and nationalism increasingly cheaper and diversified means of media production challenging state monopolies of the media the reality of personalised and globalised media and the challenging of the connection between a free media and democracy by global capitalism and corporate control of the media The book argues that the dominant forces transforming Indonesia today did not arise from the singular point of Suharto s resignation but from a set of factors which are independent from but linked to Indonesia s internal politics and which shape its cultural industries

**Ummat** ,1998 *Demanding Images* Karen Strassler, 2020-03-20 The end of authoritarian rule in 1998 ushered in an exhilarating but unsettled period of democratization in Indonesia A more open political climate converged with a rapidly changing media landscape yielding a vibrant and volatile public sphere within which Indonesians grappled with the possibilities and limits of democracy amid entrenched corruption state violence and rising forms of intolerance In *Demanding Images* Karen Strassler theorizes image events as political processes in which publicly circulating images become the material ground of struggles over the nation s past present and future Considering photographs posters contemporary art graffiti selfies memes and other visual media she argues that people increasingly engage with politics through acts of making circulating manipulating and scrutinizing images *Demanding Images* is both a closely observed account of Indonesia s turbulent democratic transition and a globally salient analysis of the work of images in the era of digital media and neoliberal democracy Strassler reveals politics today to be an unruly enterprise profoundly shaped by the affective and evidentiary force of images
