Research Anthology on Human Resource Practices for the Modern Workforce

Management Association, Information Resources, 2021-12-30 Human resource departments have been a crucial part of business practices for decades and particularly in modern times as professionals deal with multigenerational workers diversity initiatives and global health and economic crises There is a necessity for human resource departments to change as well to adapt to new societal perspectives technology and business practices It is important for human resource managers to keep up to date with all emerging human resource practices in order to support successful and productive organizations The Research Anthology on Human Resource Practices for the Modern Workforce presents a dynamic and diverse collection of global practices for human resource departments This anthology discusses the emerging practices as well as modern technologies and initiatives that affect the way human resources must be conducted Covering topics such as machine learning organizational culture and social entrepreneurship this book is an excellent resource for human resource employees managers CEOs employees business students and professors researchers and academicians

Rethinking Work Rishad Tobaccowala, 2025-02-04 A sea change is occurring a change so monumental that it is making us re-invent the traditional ideas of where work is done when work is done why work is done and even what work itself is We have a choice We can either be reactive and struggle to adjust to transformational events on the fly or we can be proactive and control the narrative reinventing work to align with the evolving environment Futurist Rishad Tobaccowala has had a highly successful career because he has anticipated and capitalized on emerging trends In *Rethinking Work* Rishad outlines the reasons why being proactive in this era of unprecedented change is the only way organizations will survive and thrive Schools banks law firms startups medical offices every sector will be affected by the current or soon to be emerging trends and events that

Rishad describes in this invaluable guide Learn to thrive in a world where the who what why where when and how of work will be transformed Who will people work for A growing number of people are choosing to work for themselves while others are opting for greater control over who they work for This will lead to more options both for employees and employers on how to structure their work What will organizations look like Like nothing in the past We will no longer have a single organizational model or design but instead have a wide range of operating styles structures and sizes Why will people work Two thirds of workers under 30 are combining different gigs to not only satisfy their financial needs but to their own personal satisfaction and sense of purpose Where will people work In the metaverse At home In morphing offices that bear little resemblance to traditional workspaces With team members in other countries and customers on other continents When will people work Whenever The 9 5 workday is already passing as efficiency lessens in importance to innovation disruption and agility How will leadership change We are evolving to a new type of leadership from management focused to growth agility and learning focused

Hustle Urbanism Tatiana Thieme, 2025-03-25 Exploring hustle as a social cultural and economic phenomenon in contemporary Nairobi In Nairobi s underserved neighborhoods hustle has emerged as both a vital survival strategy and a way of life for youth Exploring the multiple meanings and manifestations of the hustle economy across different scenarios of provisioning distribution exchange learning and mobilizing Hustle Urbanism draws on more than a decade of ethnographic engagement to center the logics perspectives and inventive strategies of a group of youth who constantly navigate job scarcity inadequate basic services and climate induced harms Tatiana Thieme shows how young people develop tools of resistance against the legacies of colonial violence and uneven urban development while carving out spaces of opportunity for themselves and their peers The stories she includes bring thick ethnographic detail and longitudinal perspective to the lives and livelihoods of youth whose diverse skill sets and knowledges span from circular economies and eco activism to hip hop and local leadership Filling a significant gap in both existing scholarship and popular discussion Hustle Urbanism offers critical theorization of precarious urban environments and the affirmative modes of making life work in the city against the odds While Thieme cautions against fetishizing hustle as a form of social and economic uplift she calls for a greater recognition of the ingenuity and skill involved in hustle urbanism arguing that studying hustle narratives and practices opens up timely empirical and theoretical questions about overlapping urban struggles and possibilities that coexist in the everyday city Retail e book files for this title are screen reader friendly with images accompanied by short alt text and or extended descriptions

Research Anthology on Business Continuity and Navigating Times of Crisis Management Association, Information Resources, 2022-01-07 When the COVID 19 pandemic caused a halt in global society many business leaders found themselves unprepared for the unprecedented change that swept across industry Whether the need to shift to remote work or the inability to safely conduct business during a global pandemic many businesses struggled in the transition to the new normal In the wake of the pandemic these struggles have created opportunities to study how businesses navigate

these times of crisis The Research Anthology on Business Continuity and Navigating Times of Crisis discusses the strategies cases and research surrounding business continuity throughout crises such as pandemics This book analyzes business operations and the state of the economy during times of crisis and the leadership involved in recovery Covering topics such as crisis management entrepreneurship and business sustainability this four volume comprehensive major reference work is a valuable resource for managers CEOs business leaders entrepreneurs professors and students of higher education researchers and academicians

Innovative and Agile Contracting for Digital Transformation and Industry 4.0

Shalan, Mohammad Ali,Algarni, Mohammed Ayedh,2020-12-18 Digital transformation is reshaping the business arena as new successful digital business models are increasing agility and presenting better ways to handle business than the traditional alternatives Industry 4.0 affects everything in our daily lives and is blurring the line between the physical the biological and the digital This created an environment where technology and humans are so closely integrated that it is impacting every activity within the organizations Specifically contracting processes and procedures are challenged to align with the new business dynamics as traditional contracts are no longer fitting today's agile and continuously changing environments Businesses are required to facilitate faster more secure soft and real time transactions while protecting stakeholders rights and obligations This includes agile contracts which are dynamically handling scope changes smart contracts that can automate rule based functions friction less contracts that can facilitate different activities and opportunity contracts that looks toward the future Innovative and Agile Contracting for Digital Transformation and Industry 4.0 analyzes the consequences benefits and possible scenarios of contract transformation under the pressure of new technologies and business dynamics in modern times The chapters cover the problems issues complications strategies governance and risks related to the development and enforcement of digital transformation contracting practices While highlighting topics in the area of digital transformation and contracting such as artificial intelligence digital business emerging technologies and blockchain this book is ideally intended for business engineering and technology practitioners and policy makers along with practitioners stakeholders researchers academicians and students interested in understanding the scope complexity and importance of innovative contracts and agile contracting

***Learning for Uncertainty* G. Williamson McDiarmid,Yong**

Zhao,2022-01-31 Learning for Uncertainty explores technology's role in education specifically unpacking the question How should educators prepare today's children for a world that has yet to be made As technology evolves faster than our capacity to fully understand the social cultural economic and moral implications of many innovations today's educators are tasked with the unique role of preparing students to capitalize on technology's opportunities and also mitigate its dangers to their society to democratic processes and to institutions Veteran educators McDiarmid and Zhao explore the implications of emerging technologies for future jobs organizations students and learning covering topics such as The future of work and workers as technology eliminates some industries while creating new ones Potential futures both bright and dark awaiting

students The qualities dispositions social behaviors and skills that are likely to advantage students in the future The possibility of technology to revolutionize education in ways that will better position students for an uncertain future How technology can free teachers from time and effort devoted to routine matters to instead assuming roles that are potentially more satisfying and supportive of their students learning Learning opportunities and educator roles that have the potential to bring about needed changes Capitalizing on these uncertain times to rethink curriculum pedagogy opportunities to learn and the organization of school as well as the roles of students educators parents and policymakers This latest book in the Routledge Leading Change series is ideal reading for educators and policymakers in both P 12 and higher education interested in ensuring our education systems provide the experiences and learning opportunities necessary to cultivate the innovative iconoclastic and generative thinkers and creators needed for a future that nourishes the minds bodies and spirits of all
