Listen to Your Day Paul Angone, 2023-04-04 What are you supposed to do with your life What deserves your limited reserve of energy attention and time What's making you anxious or frustrated right now What would make you happy and fulfilled The world is shouting its answers to these questions but the real answers are quieter and right in front of you They are in the details of your day every day But we usually look right past them Or we are simply so distracted we've lost the ability to see and hear the life going on right in front of us If we're not intentional about changing this trend this inattentional blindness can rob us of years of joyful productivity But when we learn to observe the details of our days we discover new lenses through which to see and new practices of paying attention that add meaning to life Stop drifting Stop worrying Stop living distracted Walk purposefully through life with a firm grasp on what's important

to you and what you're working toward all by listening to the details of your day The Digital Self Comfort

start having this conversation and create a shift towards healing and balance in their marriage there are things on both sides of the table that are hard to say and extremely hard to hear While it was women who commented on the reel this story is written by a man and so also addresses the heart of men who feel alone inside their marriage My hope is that by hearing it through the lives of David and Janie it will be easier to hear without being offending or getting defensive My hope is that this book will be a gateway towards empathy
