Environmental Education William B. Stapp, Mary Dawn Liston, 1975 **Towards Critical Environmental Education**

Aristotelis S. Gkiolmas, Constantine D. Skordoulis, 2020-11-03 This volume discusses theory philosophy praxis and methods in Environmental and Ecological education and considers the junction with the main visions and issues of Critical Pedagogy The volume and its separate chapters address four axes which can also be seen as the guidelines of the content as well as the central objectives of the book The first axis concerns the missing theoretical and practical pieces at this point in time The volume considers the issues that are not included in contemporary Environmental Education and thus deprive it from critical orientations This implies that in Environmental Education very little discussion exists about the political economic racial gender and class issues that in most cases govern the actions of leaders and stake holders The second axis concerns what has been done so far and in what directions This involves descriptions of theoretical approaches or actual applied methodologies in the classroom such as curricula or syllabus used or the kind of actions certain educators have taken to infuse the issues of justice and critical reflection within the Environmental Education teaching agenda The third axis examines proposals It looks at ways to enrich domains of Environmental Education with the argumentations of Critical Pedagogy The fourth axis concerns the way in which proposals can be effectuated This part contains specific methodologies and teaching sequences depicting ways of including major aspects of Critical Pedagogy and Critical Education in Environmental Education Examples are Non anthropocentric ecological approaches in the classroom political activism in the Curricula mixture of field activities and political activities **The Failure of Environmental Education (And How We Can Fix It)** Charles Saylan, Daniel T. Blumstein, 2011-05-25 The hope for the future depends on teaching current and future students the analytical and critical thinking skills for dealing with the most critical problems My own hope is for this book to be read by everyone even those outside the field of environmental education Read this book read it again share it widely and do something anything to help our needy and wounded planet Marc Bekoff author of The Animal Manifesto Six Reasons For Expanding Our Compassion Footprint Saylan and Blumstein provide a compelling vision of what can be and what should be if we have the courage to open our eyes and the boldness to act Peter Saundry Ph D Executive Director of the National Council for Science and the Environment A clarion call to incorporate environmental education in all grades K 12 across all academic disciplines in order to produce future generations of environmental stewards Mark Gold President Heal The Bay We need a sea change in the educational system After all if we can teach schoolchildren that vandalism is wrong why can we not teach them that environmental destruction is wrong This book is a haunting call to action A beautifully written manifesto that gets it right Ron Swaisgood Director of Applied Animal Ecology Institute for Conservation Research San Diego Zoo Global The greatest threat to the future of all species on the planet is the huge gap between what is understood about global climate change by

the scientific community and what is known about climate change by the people who need to know the public The sound prescriptions in this book need to be read now We are running out of time Dr James Hansen world renowned climatologist and author of *Storms of My Grandchildren The Truth About the Coming Climate Catastrophe and Our Last Chance to Save Humanity* Environmental education is a disaster and educating the public on environmental issues is the greatest challenge facing humanity today This book will help us understand why we are headed toward the collapse of civilization and more important how to fix it Packed with sound science useful information and brilliant ideas it is a book we must read and give to our local school boards and principals nationwide Our children will thank us Paul R Ehrlich author of *The Population Bomb and Humanity on a Tightrope* *An Introduction to Environmental Education* Otiende, J.E.,2008-10-11 This book has been written for general readership but more specifically for college and university students studying environmental education in the 8 4 4 education system In eleven chapters the following broad topics are comprehensively covered Environmental Education as an academic and practical discipline People their activities resources and the environment Legal aspects of the environment Each chapter is complete in itself with relevant questions and an exhaustive bibliography It is hoped that the topical questions in each chapter will enable students to have a clearer understanding of the subject The bibliographies should be of great help to the reader who is interested in an indepth study of the respective topics discussed in the text
