Eu Foreign Policy Transitional Justice And Mediation:

EU Foreign Policy, Transitional Justice and Mediation Laura Davis, 2014-07-11 This book analyses how the European Union translates its principles of peace and justice into policy and puts them into practice particularly in societies in or emerging from violent conflict The European Union treaty states that in its relations with the wider world the EU is to promote peace security the protection of human rights and the strict observance and the development of international law The EU is active in peace processes around the world yet its role in international peace mediation is largely ignored This book offers the first scholarly analysis of how the EU engages in peace processes and justice for human rights violations focussing on the point where mediation and transitional justice intersect Drawing on extensive fieldwork the book includes case studies of how the EU sought to promote peace and justice in the Democratic Republic of Congo DRC how it supports international justice through the International Criminal Court and a model of the EU as a mediator These provide an evidence base for policy makers and practitioners as well as strong empirical contributions to theory The book addresses whether and how the EU pursues its principles of both peace and justice in conflict zones where in practice these principles may be in conflict and the implications of these findings for understanding EU foreign policy and the EU as a security actor This book will be of much interest to students of EU foreign policy transitional justice peace and conflict studies and security studies

The European Union as a Mediator in Post-Conflict Western Balkans Violeta Ferati Bakia, 2023-08-22

Attempting to pacify the emergent wars in the 1990s the European Union mediation could not stop the vast destruction and prevent genocide from taking place right next door to the EU the world s biggest peace project In the 21st century the Western Balkans region has again become a subject of testing the EU s new foreign policy instrument mediation This time the EU assumed the role of a post conflict mediator aiming to sustainably resolve the intractable conflicts in the post war setting of the region While its first mediations in the former Yugoslavia were unsuccessful the EU s recent mediation attempts in the post violent stage of the Balkans conflicts have resulted in varied outcomes Introducing a new model this book explains the varying effectiveness of EU mediation in post conflict and analyses the determining conditions of the EU mediation efficiency in post conflict settings The book is among the few publications that shed light on EU mediation utilized as an instrument of conflict resolution that aims to solve protracted conflicts in post conflict settings

The European Union as International Mediator Julian Bergmann, 2019-07-27 This book explores the EU s effectiveness as an international mediator and provides a comparative analysis of EU mediation through three case studies the conflict over Montenegro s independence the Belgrade Pristina dialogue between Kosovo and Serbia and the Geneva International Discussions on South Ossetia and Abkhazia The book starts from the observation that the EU has emerged as an important international provider of mediation in various conflicts around the world Against this background the author develops an analytical framework to investigate EU mediation effectiveness that is then applied to the three cases The main finding of the book is that EU

mediation has a stabilising effect on conflict dynamics making renewed escalation less likely and contributing to the settlement of conflict issues At the same time the EU's effectiveness depends primarily on its ability to influence the conflict parties willingness to compromise through conditionality and diplomatic pressure

Theorising the European Union as an International Security Provider Annemarie Peen Dodt, Richard Whitman, Stefan Wolff, 2018-02-02 The European Union has increasingly taken on a role as international security provider that extends beyond the geographical scope of its membership This is clear from the wide range of military and civilian crisis management missions that the Union has undertaken but also identifiable through its other policies such as the European Neighbourhood Policy and development assistance which have also to some extent become security focused Yet the role of the EU as an international security provider remains under theorized and weakly understood The proposed book analyses the Union's role as an international security provider in a comprehensive way developing theoretical as well as empirical grounding for the understanding of the making and implementation of EU security policy The contributions in this book cover actors involved in the policy making process the dynamics of this process itself its outcomes strategies and policies and their impact on the ground They examine the relevance of and apply existing theories of international relations international security and foreign policy analysis to the specific case of the EU investigate empirically how particular policies are formulated and implemented and study the impact and effectiveness of the Union as an international security provider in a variety of cases compared This book was previously published as a special issue of *Global Society*

Conflict Resolution and Global Justice Nikola Tomić, Ben Tonra, 2021-07-09 This book examines how the different normative foundations of conflict resolution held by various global actors their understandings of justice and the differences between types of conflict influence the varying means by which conflicts can be prevented managed and ultimately resolved By combining insights from political theory conflict studies and European Union

EU foreign policy studies the book identifies the EU as the key case of a conflict manager that is both a product and a defender of a global liberal order. It focuses on three aspects of conflict resolution that pose their own sets of both normative and empirical dilemmas: resolving border disputes, strengthening the resilience of weak or divided states and societies after regime change, and intervention in humanitarian crises. Furthermore, it offers a comparative analysis between a potentially distinctive European approach and that of other global actors and reflects critically on situations where policy practice may not always reflect a concern for justice, asking what countervailing forces prevail and why. This book will be of key interest to scholars and students in European and EU Studies, Area studies, Conflict Resolution, War Studies, EU Foreign Policy, Political Theory, International relations, as well as policymakers.

From Early Warning to Early Action? European Commission. DG External Relations, 2008. Today's world is characterised by more conflict than ever before: last year 118 violent conflicts wreaked destruction around the globe. This book, mainly designed for NGOs, politicians, social workers, citizens and students, leads the discussion on how the European Union can use its resources to respond more effectively to the contemporary challenges in civilian crisis response. Divided into six sections, the book is a collection of texts written by experts from European Union institutions, European think tanks and universities, as well as high-ranking officials from the European Union military staff and experts from non-governmental organisations. The texts are accompanied by beautiful pictures by professional photojournalists. Over the last two years, the European Union has taken a range of steps to enhance the way it deals with international crises and natural disasters. EU financial resources for crisis response have increased more than four fold since 2006. These resources are being used in closer cooperation and partnership with European Union Member States, NGOs and the think tank community in Europe and beyond. New ways of acting faster, on the basis of early warning, have been drawn up. This new book is a collection of writing illustrating the progress made in these areas against the background of discussion and input from policy experts and practitioners in the field. It builds on the range of views aired at the Commission's conference 'From Early Warning to Early action' held in November 2007, involving more than 900 diplomats, officers, practitioners, scholars and advocates representing all facets of the network of European crisis responders. The book, one of the few comprehensive examinations of crisis response and preparedness in action, is divided into four main parts: partnership building, mediation and peace keeping, natural resource wars and trans-regional threats, early warning and intelligence. It is a follow-up to 'Faster and more united: an overview of discussion on the EU's crisis response capacity', published in 2006.
