Presenting On Tv And Radio An Insiders Guide:

Presenting on TV and Radio Janet Trewin, 2003 Aspiring radio and TV presenters will benefit from the informative and entertaining guidance provided by accomplished presenter Janet Trewin. *Presenting on TV and Radio* is packed with illustrations, practical exercises and insider tips for improving your presentation skills and breaking into this competitive industry. Based on the principle that all successful presentation on TV and radio is dependent on uniform skills applicable to both mediums, the book begins by explaining basics such as appearance, authority, body language, diction, scriptwriting, deadlines, technology and working with a co-presenter. Valuable insights into key employment issues such as sexism, ageism, racism and disability are also offered. The different requirements of TV and radio presentation are then examined, focusing on each specialist area in detail and with tips from professionals in the business. These include presenting news in the studio as an anchor and as a reporter on the road, current affairs and features involving live and recorded material, DJing, light entertainment, e.g. game shows and personality programmes, sports presentation, children's programmes, foreign broadcasters and those broadcasting to worldwide audiences. *Freelancing for Television and Radio* Leslie Mitchell, 2005-09-19 Drawing on real-life experiences, this indispensable guide presents everything needed to study, create and maintain a successful freelancing career in the world of television and radio, including for the first time how to submit programme proposals.

The Radio Handbook John Collins, Arran Bee, 2021-03-29 Updated and revised, the fourth edition of *The Radio Handbook* is a comprehensive guide to the medium of radio and the radio industry in the UK. Featuring new chapters on social media and podcasting, this book offers a thorough breakdown of the knowledge and skills needed to work within the contemporary radio industry. Using examples, case studies and transcripts, it examines the various building blocks that make radio, from music scheduling to news values and from phone-ins to sports commentaries. The latest trends in contemporary audio practice are referenced throughout, including the increased adoption of smartphone technology, further consolidation within commercial radio and the ongoing debate about the future funding of the BBC against the backdrop of an accelerated move towards remote working, the rise in popularity of podcasting and an ever more crowded media landscape. Combining theory and practice, this textbook is ideally suited for students of radio, media communications and journalism. It equips readers with the skills they need to not only produce good radio themselves but to have the knowledge they need to become a critical friend of the medium.

Music Documentaries for Radio Sam Coley, 2021-11-16 Drawing on both academic research and real-world practice, this book offers an in-depth investigation into the production of music documentaries broadcast on radio. *Music Documentaries for Radio* provides a thorough overview of how the genre has developed technically and editorially, alongside a discussion of the practical production processes involved. Digital production equipment and online tools used in
