Project Management Clifford F. Gray, Erik W. Larson, 2014 Do you want to be a Certified Project Manager This book combines operational and human skills into flexible proactive framework It focuses on the human element that is critical to project implementation and completion It also provides an intuitive five step approach for collecting the necessary information to plan schedule and control a project Also features examples case studies and analysis for each phase of a typical project to ensure that each project you manage meets its goals on time and on budget Provides proven guidelines for managing projects from both the operational and behavioral standpoint *Project Management of Large Software-Intensive Systems* Marvin Gechman, 2019-03-11 The book describes how to manage and successfully deliver large complex and expensive systems that can be composed of millions of line of software code being developed by numerous groups throughout the globe that interface with many hardware items being developed by geographically dispersed companies where the system also includes people policies constraints regulations and a myriad of other factors It focuses on how to seamlessly integrate systems satisfy the customer s requirements and deliver within the budget and on time The guide is essentially a shopping list of all the activities that could be conducted with tailoring guidelines to meet the needs of each project **The Practice and Theory of Project Management** Richard Newton, 2019-11-05 Managing projects a prominent feature of working life inevitably involves change at some level Even though successful project management depends on organisational change textbooks often fail to recognise this symbiotic nature This book offers students a practical understanding of the strategic and organisational role of projects Production & Operation Management Navin Kumar Dev , 2025-06-01 Project Management Erik W. Larson, Larson et al, Beverley Honig, Clifford F. Gray, David Baccarini, Ursula Dantin, 2013-09-26 *Project Management The Managerial Process* provides a holistic integrative view of project management with a focus on the above framework It presents readers with a complete picture of project management not only what to do and how to do it but also why it is done This international adaptation contains the valuable addition of local and regional cases and applications The generic approach in this text ensures relevancy across all studies and industries for students prospective project managers project management practitioners analysts managers or those assigned to project teams Research Handbook on Project Performance Vittal S. Anantatmula, Chakradhar Iyyunni, 2023-03-02 This engaging Research Handbook presents a fresh look at how to improve project performance for the project sponsor client and end user using a number of empirical research studies Focusing on project performance concepts and methods the Handbook provides a fresh look at successful project completions achieving project objectives on time or ahead of time project completion or delivering within budget *Systemic and Systematic Risk Management* Joseph E. Kasser, 2020-05-14 This book discusses risk management as it applies to problem solving for simple complex and wicked problems faced by policy creators and implementors project managers and systems engineers in the context of policies large engineering projects LEPs projects and systems When

applying systems thinking to risk management it can be seen that risk management applies to almost every action taken in daily life This book Introduces the systems approach of integrating risk management into policy creation and implementation project management and systems engineering such as the risk framework and the Firm Fixed Price FFP contract with penalties and bonuses Introduces a number of out of the box concepts building on the application of the systems thinking tools in the system thinker s toolbox Points out that integrating risk management into policy and project management and systems engineering is just good management and engineering practice Discusses the flow of risk in a policy from creation through implementation via LEPs and simpler projects identifying where risks arise and where they should be dealt with Presents the risks in the relationship between policy creation implementation project management and systems engineering Discusses risks throughout the policy implementation process and shows how the nature of risks changes from political to financial to technological as implementation proceeds Discusses managing complexity and specifies the minimum number of elements in a system for it to be defined as and managed as complex Points out that in most instances the traditionally ignored major implementation risk is that of poor performance by personnel Shows how to proactively incorporate prevention into planning in order to prevent risks as well as how to mitigate them when they occur

Proceedings of the International Conference on Business and Management Dynamics 2016: Sustainable economies in the

information economy Joy E. Akahome, Michael Twum-Darko, Cyril Ogbokor, Nyaniso Mfusi Zonke, T. Sethibe, R. Steyn, Esme Mohammed, Renier Steyn, L.B. Nguenang, Mamorena Lucia Matsoso, Henry N. Ozuru, Julius Akaba, Patient Rambe, Edem Korku Agbobli, Henri-Vincent Ndjave-Ndjoy, Regis Muchemwa, Andre de la Harpe, Konosoang Mpiti, Ayodeji Afolayan, 2016-12-31 Cape Town South Africa 7 Sept 2016 8 Sept 2016 Theme Sustainable economies in the information economy Purpose To share the quality academic papers presented at the International Conference on Business and Management Dynamics ICBMD held from 7 to 8 September 2016 at African Pride Crystal Hotel and Spa in Cape Town As grey literature the proceedings are the contributions made by researchers at the conference and are considered the written record of the work that was presented to fellow conference delegates Methodology The methodology used varies from researcher to researcher but are suitable for the studies conducted Thus on the one hand studies that were subjective in nature used the interpretive paradigm where the qualitative approach adopted made use of the interview method to collect data On the other hand studies that were objectively inclined adopted the positivist philosophy and used survey questionnaires to collect data However there were some academic papers which used mixed methodology because of the nature of the study Whatever methodology used adhered to the ethos of the philosophies underpinning the methodology Contribution made to scholarship The articles come from individual researchers and each article in the proceedings is unique Mostly there is no general argument leading from one contribution to the next However it is interesting to note that in the area of economic performance it was evident that real exchange rate and net foreign direct investment contribute more towards innovations in

economic growth With regard to human capital development papers presented evidence that there exists a definite need to explore the phenomenon of personal branding as limited scientific academic research has been done within the field of personal branding or on elements of the topic Thus the outcome argues that personal branding has an influence on leadership style which in turn impacts on organisational performance and related hygiene factors Furthermore it was demonstrated that current methods or strategies for enforcing institutionalisation of knowledge sharing within an organisation have not been successful and as such new strategies are needed to reinforce efforts to nurture and invigorate the institutionalisation of knowledge sharing within an organisation With regard to technology and big data impact on organisational performance it was evident that system performance memory consumption and CPU utilisation can be used as criteria to compare and evaluate big data technologies to improve organisational performance Most of the articles contribution reemphasised technology education and training as a means of digitising business and improving effectiveness Target audience The target readership is academic researchers and business leaders who require access to the latest developments in the fields of economics information management business education development studies social sciences and technology It is also for policymakers and other stakeholders who need a better understanding of the impact of new developments on existing policies and regulations for their review or amendment *The Innovation Approach* David C. Roach,2024-12-04 Revisiting the fundamentals of innovation by considering the strengths and weaknesses of Design Thinking and the Lean Startup expert David C Roach focuses on innovation management and emphasizes the importance of managing the front end of innovation where critical decisions are made and concepts are shaped *Managing Services* Mark M. Davis,Janelle N. Heineke,2003 Managing Services is an alternative to the growing service management market in that it is more managerial and procedural placing less emphasis on quantitative tools and more on strategic concerns The benefit of this approach is that it views services from the perspective of the general manager rather than the operations specialist This is important especially considering most students taking this course aspire to and are preparing for managerial positions

Essentials of Business Statistics Bruce L. Bowerman,Richard T. O'Connell,J. B.
