Essentialism The Disciplined Pursuit of Less is a self help book by Greg McKeown The book outlines a minimalist approach to tasks and obligations by focusing on truly important goals and learning to turn down opportunities that do not directly contribute to meeting those goals The modern fixation with multitasking and having it all has paradoxically resulted in accomplished motivated people doing many relatively unimportant things poorly while neglecting their true goals because they are afraid of refusing any request PLEASE NOTE This is key takeaways and analysis of the book and NOT the original book Inside this Instaread of Essentialism Overview of the book Important People Key Takeaways Analysis of Key Takeaways

Summary of Essentialism - The Disciplined Pursuit of Less , Essentialism is more than just a productivity hack or time management tactic It is a methodical discipline for identifying what is truly necessary and then getting rid of everything else so we may contribute as much as we can to the issues that truly matter The disciplined pursuit of less helps us to retake control of our own decisions about where to spend our valuable time and energy by forcing us to apply more discriminating criteria for what is Essential as opposed to implicitly granting others the right to make such decisions for us Getting more

done in less time isn't the goal of the essentialist approach. It's not about accomplishing less. It's about completing only the appropriate tasks. The fundamental beliefs of "we can have it all and I have to do everything" are being challenged and they are being replaced with the pursuit of the correct decision in the right way at the right time. Instead of allowing others to make decisions for us, we should take back control of where we choose to invest our time and energy.
