NOTE: Some email marketing providers don't import images into templates. Use this as a guide for your own or if you know HTML, get [this sample template](#) or this [editable one for MailChimp](#). For visual learners, a template showing the info below is [also available as a PDF](#).

Preview text also entices clicks. Emojis, especially lots of them, could weaken your message, so use them sparingly – preferably at the end. The headline is the first thing people see, however, because it can be harder to write, you may save it for last.

Nielsen Norman Group studies show people tend to focus on the top-left in an F-pattern that trails off near the end. Cut the fluff. Answer the questions "What?" and "Why?". Content ideas:
