Adaptation and Challenges of Remote Teaching and Digital Tools Kagan, Kate, Schaippacasse Tapia, Gabriela, 2025-11-13. With the rapid shift to remote teaching, educational technologies transform the landscape of education. As these technologies enable better access to education, they also present significant challenges. Greater access to learning across geographic sectors reshapes traditional teaching methods, allowing education systems to adapt to virtual environments. Remote teaching offers flexibility while raising concerns about student engagement and instructional quality. Navigating these issues requires technological proficiency and a deeper understanding of pedagogical adaptation. **Adaptation and Challenges of Remote Teaching and Digital Tools** explores the evolution of education through applications of digital, virtual, and intelligent technology. It examines how various tools and methodological innovations transform learning. Covering topics such as remote teaching, digital technology, and hybrid classrooms, this book is an excellent resource for educators, engineers, sociologists, academicians, and researchers.

Enhancing Quality in Conference Interpreting Amini, Mansour, 2025-11-05. Enhancing quality in conference interpreting is essential in spaces where multilingual communication supports diplomacy, international business, and global collaboration. As conferences grow in complexity and diversity, the demand for high-quality interpreting services increases. Ensuring interpretation excellence requires a multifaceted approach, combining rigorous training, professional standards, and the use of technology. Interpreter competence, subject matter expertise, and ethical conduct are foundational, while supportive working conditions and ongoing professional development contribute to improved performance. Emerging technologies also present opportunities and challenges that must be carefully managed. By prioritizing quality, stakeholders can ensure conference interpreting facilitates clear, accurate, and inclusive communication across linguistic and cultural boundaries. **Enhancing Quality in Conference Interpreting** explores the fundamentals of conference interpreting, its evolution, and the roles of various stakeholders. It delves into the expectations of users, the challenges faced by interpreters, and the constraints encountered by clients while addressing training needs, the impact of AI, policy recommendations, and strategies for elevating the quality of conference interpreting. This book covers topics such as ethics, law, pedagogy, and language and linguistics and is a useful resource for translators and interpreters, business owners, policymakers, government officials, educators, academicians, researchers, and

scientists *Breaking Things at Work* Gavin Mueller, 2021-02-09 An exhilarating challenge to the way we think about work technology progress and what we want from the future In the 19th century English textile workers responded to the introduction of new technologies on the factory floor by smashing them to bits For years the Luddites roamed the English countryside practicing drills and maneuvers that they would later deploy on unassuming machines The movement has been derided by scholars as a backwards looking and ultimately ineffectual effort to stem the march of history for Gavin Mueller the movement gets at the heart of the antagonistic relationship between workers all workers including us today and the so called progressive gains secured by new technologies The luddites weren't primitive or even anachronistic they are still a force however unconsciously in the workplaces of the 21st century world *Breaking Things at Work* is an innovative rethinking of labor and machines leaping from textile mills to algorithms from existentially threatened knife cutters of rural Germany to surveillance evading truckers driving across the continental United States Mueller argues that the future stability and empowerment of working class movements will depend on subverting these technologies and preventing their spread wherever possible The task is high but the seeds of this resistance are already present in the Neo Luddite efforts of hackers pirates and dark web users who are challenging surveillance and control often through older systems of communication technology
