E-Government Implementation and Practice in Developing Countries Mahmood, Zaigham, 2013-05-31 This book provides research on the current actions being taken by developing countries toward the design development and implementation of e government policies Provided by publisher *Poverty Reduction and the World Bank* World Bank, 1996 Reducing poverty in developing countries is one of the most persistent challenge facing the world today The governments and civil societies of developing countries are in the forefront of the battle

to reduce poverty Institutions such as the World Bank are working to improve their efforts to help governments The Bank works with governments in supporting poverty reduction objectives in a wide variety of ways including by providing information analysis and financial assistance and by liaising with other donors This report examines how far developing countries have come towards meeting the challenge of reducing poverty since 1990 and how the Bank s support for their efforts has evolved The report concludes that some progress has been made in reducing poverty in the developing world since the late 1980s although there have been important regional variations in both outcomes and circumstances It confirms the crucial importance of growth for reducing poverty The report also finds that the Bank has made good progress in implementing its poverty reduction strategy but the challenge remains substantial The report is organized as follows Chapter 1 examines worldwide trends in poverty and welfare indicators from the late 1980s to the mid 1990s and assesses the extent to which poverty has fallen Chapter 2 outlines how the Bank has been supporting government efforts to reduce poverty at the country level since 1990 and reports on progress made by the Bank in fiscal 1995 Chapter 3 uses the latest household survey data and other sources of information to explore the impact that various key factors growth adjustment reforms public expenditures and projects have had on reducing poverty Finally chapter 4 discusses important lessons learned about reducing poverty and highlights several areas that need to be emphasized in the future

The Philosopher's Stone for Sustainability Yoshiaki Shimomura,Koji Kimita,2012-09-19 Industrial Product Service Systems IPS2 which is defined as an integrated industrial product and service offering that delivers value in use has expanded rapidly over the last decade IPS2 has allowed us to achieve both high added value and high productivity and has enriched our QOL by improving the performance of products and services We are now struggling with many awkward issues related to sustainability but IPS2 is expected to be the philosopher s stone for solving these issues Following the pattern of conferences held in Cranfield in 2009 Link ping in 2010 and Braunschweig in 2011 the fourth International CIRP Conference on Industrial Product Service Systems held on November 8 9 2012 in Tokyo will cover various aspects of IPS2 Topics planned for this year s conference reflect the latest IPS2 information in both the natural sciences and humanities and include case studies from various industries IPS2 is still a relatively new field so it is important to keep track of the entire context in order to promote more cross sectional cooperation between multimodal fields and disciplines The fourth International CIRP Conference on Industrial Product Service Systems will serve as a vital platform for such collaborations and the discussion of new scientific ideas
