Global South Creator Cultures Tugce Bidav, Smith Mehta, 2025-12-15 Global South Creator Cultures situates creator labour within the geographic specificities of nation states and examines the working conditions of social media creators and the geographical challenges of their work, offering a four-part conceptual framework for studying creator cultures. Rather than placing creator cultures in the Global South against those in the Global North to produce a series of binaries, it prioritises expanding our frames of reference for studying creator labour. It does so by examining creator cultures in India, Turkey, Brazil, Chile, Pakistan, Nigeria, Hong Kong, and China through approaches from media communication and cultural studies, as well as internet platform and creator studies. Rich with grounded subjective experiences of Global South creators, this collection is essential reading for students and academics of media communication and cultural studies and appeals to anyone interested in understanding the complex relationship between nation states, social media platforms, and creators.
