**Research Handbook on the Law of Professional Football Clubs** Robby Houben, 2023-09-06 This original Research Handbook examines the key legal aspects of a professional football club's actions. Reflecting also on the role of key governing bodies such as UEFA, the Handbook informs and contributes to the ongoing debate surrounding the governance and behaviours of professional football clubs.

**The Handbook of Fashion Law**, 2025-02-12 Over the past few years, fashion law has emerged as a vibrant field of inquiry. The legal and policy issues affecting the fashion sector have been investigated with increasing intensity, while a growing number of private practice lawyers and in-house counsel regard themselves as practising fashion law. But what is fashion law? And what are the specific legal challenges facing the fashion sector, as well as related solutions? The Handbook of Fashion Law seeks to answer these questions by bringing together multiple voices, approaches, and jurisdictions. Its contributions are organized into four thematic areas: Part I considers the legal infrastructure of the fashion and luxury industries, addressing issues related to intellectual property (IP) as well as the demands of the circular economy, protection of cultural heritage, and freedom of expression and information; Part II maps the IP dimensions of fashion by reviewing the application of design rights, copyright, trade marks, geographical indications, plant variety rights, and trade secrets; Part III analyses specific contractual issues arising in the fashion sector. It examines the application of principles and rules found in regulatory frameworks, including those governing advertising, competition, consumer, and tax laws. Finally, Part IV dissects and evaluates the role of new and emerging technologies in the fashion sector from a legal perspective. It considers concepts such as e-commerce, 3D printing, counterfeiting, artificial intelligence, non-fungible tokens (NFTs), the metaverse, gaming, and wearable technology. The Handbook of Fashion Law offers readers a multidisciplinary and multijurisdictional understanding of legal challenges facing the fashion sector. Bringing together a diverse range of experts, its contributions offer readers an in-depth, critical, and strategic understanding of the fashion industry's legal intricacies.

**Academic Brands** Mario Biagioli, Madhavi Sunder, 2022-07-21 The first comprehensive analysis of the emergence of academic brands, this book explores how the modern university is being transformed in an increasingly global economy of higher education, where luxury is replacing access. More than just a sign of corporatization and privatization, academic brands provide a unique window on the university's concerns and struggles with conveying excellence and reputation in a competitive landscape organized by rankings, while also capitalizing on its brand to generate revenue when state support dwindles. This multidisciplinary volume addresses topics including the uniqueness of academic brands, their role in the global brand economy of distinction, and their vulnerability to problematic social and political associations. By focusing on brands, the volume analyzes the tensions between the university's traditional commitment to public interest values, education, research, and the production of knowledge, and its increasingly managerial culture framed by corporate/private values. Available as Open Access on Cambridge Core.
