economical access to remote workers and frequently leverage technology to manage workflow to and from the employer
Much computer freelance work is being outsourced to developing countries outside the United States and Europe Freelance
marketplaces provide a marketplace for freelancers and buyers Service providers or sellers create a profile where they
include a description of the services they offer examples of their work and in some cases information about their rates Buyers
register and complete a basic profile and then post projects outlining their requirements Buyers will then bid for these
projects on a fixed price or hourly basis 29 Many of these websites have user review sections that affect the reputation of
freelancers who list there and which may be manipulated Freelance marketplaces have globalized competition for some jobs
allowing workers in high and low income countries to compete with one another According to a 2016 study by the McKinsey
