Generative AI Approaches to Sustainable Development in Higher Education Meletiadou, Eleni, 2025-05-08

Generative Artificial Intelligence (GAI) has emerged as a transformative force in higher education, offering both challenges and opportunities. The integration of AI with Education for Sustainable Development (ESD) in Higher Education has sparked a paradigm shift in teaching, learning, and assessment, offering both incredible opportunities and complex challenges. Using AI-generated content in educational activities has raised equity and accessibility concerns. As a result, research is needed to explore the various challenges with the global integration of ESD and AI, particularly in terms of social justice. *Generative AI Approaches to Sustainable Development in Higher Education* explores critical aspects of integrating AI and ESD in Higher Education classrooms to achieve educational goals. It provides a balanced perspective on the responsible and effective use of these technologies, AI and ESD in education, highlighting the need for a thoughtful, ethical, and inclusive approach to their integration. Covering topics such as immersive educational pedagogy, learning development, and intercultural communication, this book is an excellent resource for teachers, school administrators, social justice advocates, policymakers, professionals, researchers, scholars, academicians, and more.

Artificial Intelligence in Education: The Intersection of Technology and Pedagogy Peter Ilic, Imogen Casebourne, Rupert Wegerif, 2024-12-02. This book offers a multidisciplinary perspective on the ways in which the careful integration of AI might enhance learning outcomes. By inviting dialogue between engineering, what is possible, and pedagogy, what might be desirable, the book offers a holistic view of AI's potential for education. Offering both case studies of practical implementation and pedagogically informed frameworks, it focuses on appropriately integrating technology for educational benefit, presenting a uniquely broad view. The contributors, who are both educators and technically proficient, bring insights into teaching and assessment approaches, research questions, and technological affordances or constraints. Essential for researchers, educators, and policymakers navigating the rapidly evolving educational technology landscape as AI becomes increasingly prevalent in every aspect of life.

Generative AI in Higher Education Cecilia Ka Yuk Chan, Tom Colloton, 2024-03-21. Chan and Colloton's book is one of the first to provide a comprehensive examination of the use and impact of ChatGPT and Generative AI (GenAI) in higher education. Since November 2022, every conversation in higher education has involved ChatGPT, and its impact on all aspects of teaching and learning. The book explores the necessity of AI literacy tailored to professional contexts, assesses the strengths and weaknesses of incorporating ChatGPT in curriculum design, and delves into the transformation of assessment methods in the GenAI era. The authors introduce the Six Assessment
