Digital Media and Innovation Richard A. Gershon, 2024-03-26. This fully updated second edition explores the importance of innovation and innovative thinking for the long-term success of today's leading media, telecommunications, and information technology companies. The book takes an in-depth look at how smart, creative companies have transformed today's digital economy by introducing unique and highly differentiated products and services. This edition provides a detailed overview of intelligent networks and analyzes disruptive business models and processes from companies involved in social media, artificial intelligence, the metaverse, smart cities, and robotics among other emerging areas. From Apple to Zoom, this book considers some of the key people, companies, and strategies that have transformed the communication industries. Exploring the power of good ideas, this book goes inside the creative edge and looks at what makes such companies successful over time. *Digital Media and Innovation* is suited to advanced undergraduate and graduate courses in media management, media industries, communication technology, and business management and innovation and provides up-to-date research for media and business professionals.

Four Battlegrounds Paul Scharre, 2023-02-28. An NPR 2023 Books We Love Pick. One of the Next Big Idea Club's Must Read Books. An invaluable primer to arguably the most important driver of change for our future. P. W. Singer, author of *Burn In*. An award-winning defense expert tells the story of today's great power rivalry: the struggle to control artificial intelligence. A new industrial revolution has begun. Like mechanization or electricity before it, artificial intelligence will touch every aspect of our lives and cause profound disruptions in the balance of global power, especially among the AI superpowers: China, the United States, and Europe. Autonomous weapons expert Paul Scharre takes readers inside the fierce competition to develop and implement this game-changing technology and dominate the future. *Four*

Battlegrounds argues that four key elements define this struggle: data, computing power, talent, and institutions. Data is a vital resource like coal or oil but it must be collected and refined. Advanced computer chips are the essence of computing power; control over chip supply chains grants leverage over rivals. Talent is about people: which country attracts the best researchers and most advanced technology companies. The fourth battlefield is maybe the most critical: the ultimate global leader in AI will have institutions that effectively incorporate AI into their economy, society, and especially their military. Scharre's account surges with futuristic technology. He explores the ways AI systems are already discovering new strategies via millions of war game simulations, developing combat tactics better than any human, tracking billions of people using biometrics, and subtly controlling information with secret algorithms. He visits China's National Team of leading AI companies to show the chilling synergy between China's government, private sector, and surveillance state. He interviews Pentagon leadership and tours U.S. Defense Department offices in Silicon Valley, revealing deep tensions between the military and tech giants who control data, chips, and talent. Yet he concludes that those tensions inherent to our democratic system create resilience and resistance to autocracy in the face of overwhelmingly powerful technology. Engaging and direct. *Four Battlegrounds* offers a vivid picture of how AI is transforming warfare, global security, and the future of human freedom, and what it will take for democracies to remain at the forefront of the world order. — *Inner Entrepreneur*, Grant Sabatier, 2025-03-11

From the creator of *Millennial Money* and the international bestselling author of *Financial Freedom* comes a comprehensive blueprint detailing how to start, build, buy, scale, and sell a business that expands your life. There's never been a better time to become an entrepreneur. As wages stagnate and traditional jobs lose their luster, people are eager to be their own bosses and to step out of the grind. But where to begin? What are the real opportunities? How do you avoid becoming consumed by your business with no room for yourself? Or even better, how do you use your business to create more peace and freedom in your life? Grant Sabatier has been through it all, and in this hands-on guide, he takes you through each step of the process, from finding the business that works for you to scaling as big as you want, to selling your business all without writing a business plan, needing investors, or sacrificing the things that are most important in your life. After all, you run your business. It should not run you. Unlike get-rich-quick books, *Inner Entrepreneur* is truly comprehensive. This book will give you the keys to building wealth but will also help you every step of the way, leaving no topic unexplored and offering resources and inspiring stories from people who have been there before you. Whether you're just starting out or you're a seasoned pro looking for advice on your next move, *Inner Entrepreneur* will help you build a business and a life you love. — *Transformational Innovation in the Creative and Cultural Industries*, Alison Rieple, Robert DeFillippi, David Schreiber, 2023-06-13

Interest in the management of creative and cultural organisations has grown at pace with the size of this sector. This textbook uniquely focuses on how innovation in these industries transforms practice. Uncovering the strategic role of innovation for organizations in the creative and cultural sector, the book provides readers with practical guidance to help traverse seismic disruptions brought about by global health

and economic crises The authors examine how innovation in business models products services and technology has disrupted the competitive landscapes of the arts world Innovations are characterized as deriving from other industries as well as via exogenous shocks that privilege some companies over others Case studies bring to life how innovation is used strategically in different ways around varying competitive forces Enhanced by conceptual tools and replete with industry examples this textbook is an ideal resource for students and reflective practitioners to understand how innovation can be a productive tool for transforming their own creative and cultural industry practice and performance during a period of rapid technological change and unprecedented societal challenge
