Philosophy of Communication Ethics Ronald C. Arnett, Patricia Arneson, 2014-10-08 Philosophy of Communication Ethics is a unique and timely contribution to the study of communication ethics. This series of essays articulates unequivocally the intimate connection between philosophy of communication and communication ethics. This scholarly volume assumes that there is a multiplicity of communication ethics. What distinguishes one communication ethic from another is the philosophy of communication in which a particular ethic is grounded. Philosophy of communication is the core ingredient for understanding the importance of and the difference between and among communication ethics. The position assumed by this collection is consistent with Alasdair MacIntyre's insights on ethics. In *A Short History of Ethics* he begins with one principal assertion: philosophy is subversive. If one cannot think philosophically, one cannot question taken-for-granted assumptions. In the case of communication ethics, to fail to think philosophically is to miss the bias, prejudice, and assumptions that constitute a given communication ethic.

Accounts, Excuses, and Apologies William L. Benoit, 1995 Because responding to complaints is such an important part of human relations, this type of discourse has been studied in various disciplines. However, these studies tend to take a narrow focus. For example, some scholars study apologies and excuses in everyday talk. Others look at public apologies in speeches. *Accounts, Excuses, and Apologies* integrates and extends existing work on this concept into a general theory. The resulting theory of image restoration is then tested through application to several instances of defensive discourse.

21st Century Communication: A Reference Handbook William F. Eadie, 2009-05-15 The discipline of communication has grown in popularity from the time professors of journalism and speech decided in the mid 1960s that the term communication was an excellent general descriptor for the theory and research that each group aspired to create. Over time, the two groups grew closer and recognized significant overlap in their theoretical and research interests, but there were also differences in their traditions that kept them apart. While both groups agreed that communication is a practical discipline, journalism professors focused a great deal of their attention on the education of media professionals. Speech professors, on the other hand, often were more oriented to the liberal arts and valued the fact that communication could be approached from a variety of traditions, including the arts, humanities, social sciences, and even the sciences. A key term in 21st Century communication, however, is convergence. Not only are media and technology converging with each other to produce new means of communicating, but individuals are increasingly using both new and existing communication tools to create new forms of communication. This convergence forces the various camps within the communication discipline to draw upon each other's theories and research methods to keep up with explaining the rapidly changing communication environment. This convergence of ideas and theories provides a space to challenge conventional ways of thinking about the communication discipline, and that's the goal of the SAGE 21st Century Reference Series volumes on Communication General.

Editor William F Eadie has sought to honor the diversity of the study of communication but also integrate that diversity into a coherent form dividing communication study into four basic properties 1 processes 2 forms and types of communication 3 characteristics to consider in creating messages and 4 relationships between communicators Via 100 chapters this 2 volume set available in both print and electronic formats highlights the most important topics issues questions and debates any student obtaining a degree in the field of communication ought to have mastered for effectiveness in the 21st Century The purpose is to provide undergraduate majors with an authoritative reference source that will serve their research needs going forward in this exciting field with more detailed information than encyclopedia entries but not as much jargon detail or density as a journal article or a research handbook chapter Comprehensive coverage captures all the major themes and subfields within communication For instance Volume 1 themes include the discipline of communication approaches to the study of communication key processes of communication forms and types of communication key characteristics of messages key communication relationships factors affecting communication and challenges and opportunities for communication Themes in Volume 2 are media as communication communication as a profession journalism public relations advertising and media management Authoritative content is provided by a stellar casts of authors who bring diverse approaches diverse styles and different points of view Curricular driven emphasis provides students with initial footholds on topics of interest in researching for term papers in preparing for GREs in consulting to determine directions to take in pursuing a senior thesis graduate degree career etc Uniform chapter structures make it easy for students to locate key information with a more or less common chapter format of Introduction Theory Methods Applications Comparisons Future Directions Summary Bibliography Suggestions for Further Reading and Cross References Availability in print and electronic formats provides students with convenient easy access

Edwards,Lisa S. Villadsen,2020-10-23 The Rhetoric of Official Apologies Critical Essays focuses on the many challenges associated with performing a speech act on behalf of a collective and the concomitant issues of rhetorically tackling the multiple political social and philosophical issues at stake when a collective issues an official apology to a group of victims Contributors address questions of whether collective remorse is possible or credible how official apologies can be evaluated who can issue apologies on behalf of whom and whether there are certain kinds of wrongdoing that simply can t be addressed in the form of an official apology Collectively the book speaks to the relevance of conceptualizing official apologies more broadly as serving multiple rhetorical purposes that span ceremonial and political

genres and represent a potentially powerful form of collective self reflection necessary for political and social advancement

Lexical Choice in Apologies as Markers of Social Class in England Diana Kiesinger, 2016-01-18 Seminar paper from the year 2015 in the subject English Language and Literature Studies Linguistics grade 1.7 Technical University of Chemnitz Anglistik Amerikanistik course Sociolinguistics language English abstract This paper is going to deal with the social differentiation in lexical choice in the context of apologising More precisely its purpose is the analysis of the correlation of social class and the use of the lexical variants pardon sorry excuse me and what Another aim of this paper is to prove that at least two groups in this case members of social classes in England are distinctly different in their usage of apologies Apart from that it is going to figure out whether the variant pardon is socially stigmatised as an underclass utterance as stated in the popular book *Watching the English* by Kate Fox The first chapter is dedicated to explain why some words are related to social classes This is going to be approached with two important anthropological works that deal with the issue Further it is going to examine why speakers behave class conscious in conversational situations or not and how this is linked to their active language planning Following this the method of social stratification is explained This chapter focuses on the division of society into classes and on defining a class scheme which could serve as the most reasonable for the analysis Chapter 3 is going to introduce the method of research of the present study a quantitative analysis and explain why this approach had been chosen Further it is going to present the layout of the questionnaire In chapter 4 the results of the quantitative analysis are going to be presented and interpreted in order to approach the research question of this paper For reasons of simplification this term paper is going to use the male form of a speaker and a participant

The speech act of apology in an American soap opera and the German equivalent Claudia Wipprecht, 2007-06-13 Seminar paper from the year 2006 in the subject English Language and Literature Studies Linguistics grade 1.0 University of Erfurt Philosophische Fakultät course Sprachstruktur und Sprachgebrauch II language English abstract Across all languages there are more or less conventionalized linguistic means to be found e.g. to form a question make a request express gratitude or utter an apology The crucial question is how these conventions look what kind of language behavior is adequate in a certain situation and if it

is understood in the context these conventions differ interculturally The speech act theory whose pioneer is clearly John Austin 1955 *How to do things with words* is an adequate approach to gain a deep insight in speech acts like greeting promising or apologizing This paper deals with the speech act set of apology Apologies are clearly performative and expressive They establish and maintain social contacts All speakers of a language know certain patterns of speech act sequences i.e. they know what has to follow after an apology and what is inappropriate The ability to apply these patterns constitutes a part of communicative competence In my paper I will focus on apologies made in an American soap opera trying to find out the structure of this speech act also considering factors like social relationships and afterwards compare it to the dubbed German version The aim of this paper is to draw a conclusion on whether cultural factors play a significant role for the translated edition and if the genuine is a prime example for this culture

The Psychological Approach to the Cause of Stuttering Johns Hopkins Medical Institutions. Information Center for Hearing, Speech, and Disorders of Human Communication, 1969 *Sorry, Sorry, Sorry* Marjorie Ingall, Susan McCarthy, 2023-01-10 I'm sorry but Sorry Sorry Sorry means that you no longer have an excuse for delivering anything other than a pitch perfect apology Ingall and McCarthy break down thorny questions with grace and humor Peggy Orenstein bestselling author of *Boys* why corporations celebrities and governments seldom apologize well how to teach children to apologize how gender and race affect both apologies and forgiveness and most of all why good apologies are essential powerful and restorative A good apology can do so many things mend fences heal wounds and bring more harmony into ourselves and our society at large With wit deep introspection and laugh out loud humor Ingall and McCarthy's guidance will help make the world a better place one apology at a time

Speech Acts' Requesting and Apologizing Strategies by Native and Non-native Adolescents English Speakers. A Comparative Research on Pragmatic Competence Elsayed Mahmoud, 2017-01-12 Research Paper postgraduate from the year 2013 in the subject English Language and Literature Studies Linguistics British University in Dubai language English abstract Considering the importance of pragmatic competence this paper analyzed the speech acts for requesting and apologizing strategies between native and non-native speakers of English To analyze written discourse in the classrooms four international secondary schools in Dubai UAE have been selected The study was conducted in the second semester of the academic year 2012/2013 The study is not controlled for gender as this factor does not have a significant impact on this study while the age is controlled In order to analyze written discourse a mixed methods research for speech acts of requests and apologies was applied To this end the DCT of Blum Kulka et al. was adapted and developed by the researcher Every DCT contains eight scripted scenarios for requests and the same number of scripted scenarios for apologies Each describes situations that specify social distance imposition and power between the participants The dependent variables are requests and speech act sets of apologies while the independent variables are social distance size of imposition power In this study all these variables could be low (L) or High (H) The data revealed that there are some similarities between the participants

supporting the fact that there are universal politeness strategies However the data also revealed some differences between the native and non native speakers strategies
