The Ultimate Resource for Project Managers

## Acronyms and Abbreviations

The following list includes all common acronyms and abbreviations that are used in the world of project management. Terms are linked to definitions where available. Please let me know if you miss an abbreviation or an acronym! I will also extend this list from time to time. However, this list is supposed to include only "pure" project management terms and not industry-specific ones (although I might include some of the software world).

Please note that some of the acronyms might have a different meaning in other contexts so you should take them with a grain of salt if you are not sure about the context. You may want to consult [Wikipedia](#) for other meanings.

web the change in direction of a beam of light as it travels from one material to another is called refraction the normal is a construction line drawn at right angles to the surface of the glass

**24 2 reflection refraction and dispersion physics libretexts** - Jun 29 2023

web we see the light reflected off a mirror coming from a direction determined by the law of reflection the changing of a light ray s direction loosely called bending when it passes through variations in matter is called refraction

**difference between reflection and refraction of light toppr** - Mar 15 2022

web 3 2 2 references what is reflection when a ray of light comes back into the same medium after striking the surface of another medium then the phenomenon is called reflection of light in other words reflection is the bouncing back of the light rays from a surface in the same medium what is refraction

**reflection and refraction of light university of california san** - Jun 17 2022

web 692 reflection and refraction of light p25 9 a as measured from the diagram the incidence angle is 60 and the refraction angle is 35 from snell s law  $\sin \theta_1 / v_1 = \sin \theta_2 / v_2$  then  $\sin 60 / 2 \times 10^8 = \sin 35 / v$  and the speed of light in the block is  $20 \times 10^8$  ms b the frequency of the light does not change upon refraction

**16 1 reflection physics openstax** - Feb 11 2022

web there are two laws that govern how light changes direction when it interacts with matter the law of reflection for situations in which light bounces off matter and the law of refraction for situations in which light passes through matter in this section we consider the geometric optics of reflection

**refraction of light science learning hub** - Sep 20 2022

web refraction is the bending of light it also happens with sound water and other waves as it passes from one transparent substance into another this bending by refraction makes it possible for us to have lenses magnifying glasses prisms and rainbows even our eyes depend upon this bending of light
