Sustainable Land Management (SLM) in practice in the Kagera Basin Food and Agriculture Organization of the United Nations, 2018-05-24 This book compiles a set of 26 papers that present the direct practical experiences and results of a large number of local practitioners and experts that supported the Transboundary agro-ecosystem management project of the Kagera river basin Kagera TAMP during the period 2010-2015. The book has been compiled by the Land and Water Division of the Food and Agriculture Organization of the United Nations (FAO) to reflect the wide range of experiences, approaches, and tools that were used for promoting participatory diagnostics, adaptive management, and adoption of sustainable land and agro-ecosystem management (SLaM) practices from farm to watershed/landscape scale. The project was supported by the Global Environment Facility (GEF), the Governments of the four countries that share the transboundary basin: Burundi, Rwanda, the United Republic of Tanzania, and Uganda, and project partners. It is hoped that the lessons learned are considered and taken up by the Governments and the Terrafrica partnership for scaling up and mainstreaming SLaM as part of the wider set of lessons learned from the 36 projects in 26 countries under the Terrafrica Strategic Investment programme, including Kagera TAMP.
