### **Advanced Learners By Chowdhury Hossain:**

**Forest conservation in protected areas of Bangladesh** Mohammad Shaheed Hossain Chowdhury, 2014-07-15 This book dealt with a number of issues under the broad subject matter of protected area focusing on the policy of collaborative management as a means to augment the forest conservation activities and enhance community development in Bangladesh. Studies covered in the book emerged with the success stories of protected area co management both in terms of community development and biodiversity conservation. Significant level of development was noticed in the socio economic conditions of the surrounding communities. Empowerment and improved social dignity of women participants signifies the initiation of co management approach. The principles of participatory governance were found reasonably well reflected in legal and policy frameworks. Based on the lessons from the studies a general metaphysical model namely Spider web model of protected area co management has been developed that can be potentially applicable in countries where local communities rely heavily on protected areas.

**Handbook of Research on Implications of Sustainable Development in Higher Education** Meletiadou, Eleni, 2023-02-10 Research in the field of education for sustainable development (ESD) is of growing concern to meet the needs of the diverse student populations in various higher education institutions. People around the world recognize that current economic development trends are not sustainable and that public awareness education and training are key to moving society toward sustainability. Although ESD continues to grow both in content and pedagogy and its visibility and respect have grown in parallel, education officials, policymakers, educators, curriculum developers, and others are called upon to rethink education in order to contribute to the achievement of the goals of sustainable development in higher education. The Handbook of Research on Implications of Sustainable Development in Higher Education provides insight regarding the implications of ESD for teaching, learning, and assessment in higher education and demonstrates the value of adopting an ESD lens by broadening and strengthening the evidence base of the impact that this can make for students, educators, and society as a whole. Covering key topics such as assessment, globalization, and inclusion, this reference work is ideal for university leaders, administrators, policymakers, researchers, scholars, practitioners, academicians, instructors, and students.

**Human Rights Enforcement Machinery In India** Dr. Rakeshkumar Maruti Kamble, 2023-06-15

**Advanced Machine Learning for Cyber-Attack Detection in IoT Networks** Dinh Thai Hoang, Nguyen Quang Hieu, Diep N. Nguyen, Ekram Hossain, 2025-05-12 Advanced Machine Learning for Cyber Attack Detection in IoT Networks analyzes diverse machine learning techniques including supervised, unsupervised, reinforcement, and deep learning along with their applications in detecting and preventing cyberattacks in future IoT systems. Chapters investigate the key challenges and vulnerabilities found in IoT security, how to handle challenges in data collection and pre processing specific to IoT environments, as well as what metrics to consider for evaluating the performance of machine learning models. Other sections look at the training, validation, and evaluation of supervised learning models and present case studies and examples that demonstrate the
