The Editors Stephen Harrison, 2024-08-13 With the pace of a thriller and the heart of a drama Taylor Lorenz *The Editors* is unnervingly familiar to anyone who has googled scrolled or browsed online in the past decade Aim for Neutrality We Need Better Sources Anonymity is Fundamental Keep Developing The editors know these principles The editors follow them every day usually The editors may not be recognized on the street but they craft the information that is seen on nearly every internet search Through Infopendium a global crowd sourced internet encyclopedia the editors influence the world Freelance journalist Morgan Wentworth recently laid off from PopFeed News attends the Global Infopendium Conference in New York expecting a straightforward story to help pay the rent But the so called pendium people are full of surprises PhDs rub shoulders with high school students all quoting the project s rules and regulations like a second language Sure millions of people see the facts curated by these editors but who really cares about the free encyclopedia When a hacker attacks the conference and posts a cryptic message it becomes clear that somebody does And Morgan decides to find out who But the path through an online information war is far from clear Foreign governments billionaires and a global virus threaten to sway the truth on Infopendium And far from Morgan s sight in places as different as Beijing and Kansas some of the editors have plans of their own
