thrive and excel when you're working remotely if you adopt the mindset habits and tech tools of professionals who are even more productive outside the office. Learn to think like a business of one and that entrepreneurial mindset will transform your experience of remote work. Remote work can be satisfying and productive once you craft a strategy that taps into the unique advantages of working from home. After a year in which many of us plunged into remote work overnight, we finally have a chance to make thoughtful choices about how to combine remote and office work and how to make the most of our days at home. Remote Inc gives you the strategies and tools you need to make remote work a valuable part of your renewed working life. Learn how to gain control over how and when you work by focusing on objectives, not the 9 to 5 workday. Wow your managers by treating them like valued clients. Beat information overload by prioritizing important emails and messages. Make online meetings purposeful, focused, and engaging. Build great relationships with your colleagues, whether at the next desk or another city. Find a balance between work from home and life at home. Make a remote work plan that lets you get the best from time at the office and the best of home. Remote Inc takes you inside the mindset and habits of people who flourish while working outside the office, some or all of the time. People who function like a business of one. That's how productivity experts Robert C. Pozen and Alexandra Samuel describe the mindset that lets people thrive when they're working remotely, whether full time or in combination with time at the office. You can follow their lead by embracing the work habits and independence of a small business owner while also tapping into the benefits of collegiality and online collaboration.

,2023-01-31 Seminar paper from the year 2022 in the subject Leadership and Human Resources Miscellaneous grade 1.0
Johannes Gutenberg University Mainz course Advanced Topics in Management and Digital Transformation language English
abstract In this systematic literature review, we analysed the impact of remote working on employees' psychological well-being with the aim to identify essential job and personal resources regarding remote working and to develop recommendations for organizations. A search was undertaken in two databases: Web of Science and Google Scholar. In this review, a total of 365 papers were identified, and 18 quantitative, seven qualitative, and one mixed method studies were included. Workplaces have a major influence on employees' quality of life and the ability to impact their well-being. The altered working conditions resulting from the digitalization are affecting employees' well-being. Additionally, COVID-19 has transformed the approach to the concept of work, and an important aspect that disruptively emerged during the pandemic is remote working. Decisions on how to promote employees' well-being whilst the new work arrangements need to be based on available evidence to optimise employees' outcomes.

- You're already remote working and want to take it up a notch, get organized, and be more efficient.
- You think you could get a little more out of your day-to-day work.
- You really want to make the most of the flexibility your telecommute offers.

This productivity guide to being more efficient while teleworking goes much further than just giving you generic magical formulas that the best leaders supposedly use. Here you'll find personal productivity tips to first get to know yourself better and then to adapt those time management and productivity techniques to your remote working needs. Don't wait to improve your personal productivity while working remotely online. You'll learn skills that will help you in both your professional and personal development. The remote work revolution is here, and succeeding from anywhere is now possible. Many more jobs can be done remotely than we think. Most office work could be done from home, but there are other things you'd never think of: customer service, phone lines, psychotherapy, life coaching, yoga teaching. Often we ourselves place limits and barriers on these things and need extreme circumstances to make us see that there are other possibilities. With remote work, office not required, and telecommuting will bring many advantages to us and the environment. Let's work remotely for a better world. The pandemic has forced us into remote working with no clue how to do it without the means, without the preparation needed. The good thing is that it has given us the great opportunity to work from home, which might otherwise have taken years or even decades to arrive. Remote work is the new normal. There is going to be more and more remote employment. It's up to you to adapt to it and to take advantage of all the benefits it holds for your career.

Carmen Corral has been remote working for more than eight years, both for companies and for herself. After more than ten years working in Human Resources and Personnel Development, stuck in an office from Monday to Friday 9 to 5, she decided to do something that gave her more flexibility in when and where she worked. Now she works remotely while traveling the world.
