Implementation mapping for selecting, adapting and developing implementation strategies Maria E. Fernandez, Byron J. Powell, Gill Ten Hoor, 2023-11-07 Advances in Human Factors in Training, Education, and Learning Sciences Salman Nazir, Tareq Z. Ahram, Waldemar Karwowski, 2021-06-26 This book addresses the importance of human factors in optimizing the learning and training process It reports on the latest research and best practices relating to the application of behavioral and cognitive science and new technologies in the design of instructional and training content It proposes innovative strategies for improving the learning and training experience and outcomes in different contexts including lower and higher education and different industry sectors A special emphasis is given to digital and distance learning gamification and virtual training Gathering contributions to the AHFE 2021 Conference on Human Factors in Training Education and Learning Sciences held virtually on July 25 29 2021 from USA this book offers extensive information and a thought provoking guide for both researchers and practitioners in the field of education and training **Youth Activism in Environmental Politics, 2nd Edition** Matt Henn, Sarah Pickard, 2023-02-02 Recently important new research has emerged to explain the large intergenerational cleavages in values and political preferences in many contemporary societies In most established democracies and many newer democracies young people are more likely to possess progressive values and are much more cosmopolitan in their outlook socially liberal accepting of cultural diversity and outward looking than older generations They tend to reject mainstream electoral politics and authoritarian nationalist forms of populism in favour of alternative progressive political parties and movements Indeed there is burgeoning evidence of a global tendency towards young people s support for and participation in new styles of non institutionalised political action that seem to better fit their life styles and to permit the actualisation of their political aspirations Although there is a considerable body of existing literature that examines the rise of such values and political participation preferences there is little work that focuses on the relationship with the prioritisation of environmental issues and environmental activism as evidenced in the September 2019 global climate strikes The goal of the current Research Topic is to explore the contemporary realities and patterns of youth participation in environmental politics in different societies As such we welcome manuscripts of original research and conceptualization that address the different practices of youth as they seek to effect environmental change and also their motivations for doing so Contributions are welcome from scholars youth practitioners and activists operating in a range of different settings and using diverse disciplinary and multidisciplinary and interdisciplinary perspectives *Youth Cultures, Responsive Education, and Learning* Robertson, Margaret E., 2023-09-18 Today s youth find themselves navigating an uncertain terrain marked by shifting societal foundations History tradition and geopolitics were once steadfast guides but now seem elusive or ineffective The pandemic identity crises and environmental upheavals have blurred the lines of reality leaving younger generations in pursuit of sustainable futures The social bonds that once held us together are weakening and

established socio political and religious frameworks no longer offer clear direction We are at a crossroads faced with a pivotal question can we provide the necessary guidance for future generations to navigate this tumultuous era and forge a brighter future Youth Cultures Responsive Education and Learning emerges as a timely and thought provoking compass for understanding and addressing the challenges confronting today s youth Rather than prescribing a singular correct path forward it offers a diverse and comprehensive exploration of the past present and future of youth culture This book is indispensable for academic scholars and researchers seeking a thorough examination of the dynamic landscape of youth cultures responsive education and learning It serves as a valuable resource for those dedicated to understanding and addressing the intricate challenges that confront our youth in an ever evolving world **School-based nutrition and**

physical activity interventions among children and adolescents Shooka Mohammadi ,Hui Chin Koo,Ai Kah Ng,2025-04-07 The increasing prevalence of obesity sedentary lifestyle and unhealthy eating habits among children and adolescents is very concerning The main risk factors that lead to childhood weight problems and obesity are an increase in meals eaten outside of the home a rise in access to high fat foods high consumption of energy packed foods a sedentary lifestyle or skipping breakfast This is concerning as obesity inadequate physical activity PA and unhealthy diets are associated with chronic diseases Therefore promoting healthy eating and sufficient PA among children and adolescents has become a research priority and an important public health concern The World Health Organization WHO considers schools a critical setting for improving public healthy eating and decreasing the risk of unhealthy weight gain in childhood In particular environmental interventions are recommended as they are more likely to lead to behavioural change Thus promoting adequate PA and a healthy diet among school aged children is essential Monthly Catalog of United States Government Publications ,1984 *Monthly Catalogue, United States Public Documents* ,1984 **Subject Catalog** University of California, Berkeley.
