*The Disengaged Teen* Jenny Anderson, Rebecca Winthrop, 2025-01-07 Our education systems are shortchanging far too many teenagers This book is brimming with insights on how to change that It s an engaging evidence based and practical read about how to develop a generation of lifelong learners Adam Grant 1 New York Times bestselling author of *Hidden Potential* and *Think Again* and host of the podcast *Re Thinking* A powerful toolkit for parents of both checked out and stressed out teens that shows exactly what to do and stop doing to support their academic and emotional flourishing Adolescents are hardwired to explore and grow and learning is mainly how they do this But a shocking majority of teens are disengaged from school simultaneously bored and overwhelmed This is feeding an alarming teen mental health crisis As kids get older and more independent parents often feel powerless to help But fear not there are evidence backed strategies to guide them from disengagement to drive in and out of school For the past five years award winning journalist Jenny Anderson and the Brookings Institution s global education expert Rebecca Winthrop have been investigating why so many children lose their love of learning in adolescence Now weaving extensive original research with real world stories of kids who transformed their relationships with learning they identify four modes of learning that students use to navigate through the shifting academic demands and social dynamics of middle and high school shaping the internal narratives about their skills potential and identity Resister When kids resist they struggle silently with profound feelings of inadequacy or invisibility which they communicate by ignoring homework playing sick skipping class or acting out Passenger When kids coast along consistently doing the bare minimum and complaining that classes are pointless They need help connecting school to their skills interests or learning needs Achiever When kids show up do the work and get consistently high grades their self worth can become tied to high performance Their disengagement is invisible fueling a fear of failure and putting them at risk for mental health challenges Explorer When kids are driven by internal curiosity rather than just external expectations they investigate the questions they care about and persist to achieve their goals Understanding your child s learning modes is vital for nurturing their ability to become Explorers Anderson and Winthrop outline simple yet counterintuitive parenting strategies for connecting with your child tailoring your listening and communication styles to their needs igniting their curiosity and building self awareness and emotional regulation

**Mastering Sovereign Artificial Intelligence** Mark Nasila, 2025-10-06 Data like oil or minerals is a vital resource and who owns it is critical especially as it fuels the artificial intelligence AI revolution Sovereign AI is about much more than countries merely owning their data it s about control It ensures AI aligns with their cultural ethical and legal frameworks It s about making sure AI works for people and not the other way around Businesses nations and leaders are quickly realising the need to embrace sovereign AI This marks a profound shift from building software to creating intelligence AI has already transformed the world how we think about its ownership will determine what comes next In this groundbreaking and thought provoking book *Mastering Sovereign*

Artificial Intelligence AI expert researcher and speaker Dr Mark Nasila explores what sovereign AI really means how it differs from other AI models and why understanding it is essential for the future He outlines the shifting geopolitical landscape of AI and the emerging trends shaping international competition delving into how AI intersects with national security the economy and global power Data and AI sovereignty demand that countries develop skilled AI workforces establish AI factories and embed governance and ethics from the very start of any AI strategy With insights from leading global experts this handbook is essential reading for anyone who s interested in AI from individuals and business leaders to policymakers and parents concerned about the future of work AI is the defining asset of our age and how we choose to own and govern it will shape the destiny of nations and our place in the world Contributing authors are Somil Gupta Prof Benjamin Rosman Isazi Consulting Dr Tapiwa Chiweve Aaron Frank Atenkosi Ngubevana Amb Dr Lavina Ramkissoon and Mic Mann

**Money, Power, and AI** Zofia Bednarz, Monika Zalnieriute, 2023-11-15 In this ambitious collection Zofia Bednarz and Monika Zalnieriute bring together leading experts to shed light on how artificial intelligence AI and automated decision making ADM create new sources of profits and power for financial firms and governments Chapter authors which include public and private lawyers social scientists and public officials working on various aspects of AI and automation across jurisdictions identify mechanisms motivations and actors behind technology used by Automated Banks and Automated States and argue for new rules frameworks and approaches to prevent harms that result from the increasingly common deployment of AI and ADM tools Responding to the opacity of financial firms and governments enabled by AI Money Power and AI advances the debate on scrutiny of power and accountability of actors who use this technology This title is available as Open Access on Cambridge Core

**Measurement and Safety** Béla G. Lipták, Kriszta Venczel, 2016-11-25 This handbook is dedicated to the next generation of automation engineers working in the fields of measurement control and safety describing the sensors and detectors used in the measurement of process variables

**Surveillance Education** Nolan Higdon, Allison Butler, 2024-08-02 Surveillance Education explores the pervasive use of digital surveillance technologies in schools and assesses its pernicious effects on students Recognizing that the use of digital technologies will persist the authors instead offer practical ways to ameliorate their impact In our era of surveillance capitalism digital media technologies are ever more intertwined into the educational process Schools are presented with digital technologies as tools of convenience for gathering and grading student work as tools of support to foster a more equitable learning environment and as tools of safety for predicting or preventing violence or monitoring mental emotional and physical health Despite a dearth of evidence to confirm their effectiveness digital data collection and tracking is often presented as a way to improve educational outcomes and safety This book challenges these fallacious assumptions and argues that the use of digital media technologies has caused great harm to students by subjecting them to oppressive levels of surveillance impinging upon their right to privacy and harvesting their personal data on behalf of Big Tech In doing so the authors draw upon interviews from K 12 and higher

education students teachers and staff civil rights and technology lawyers and educational technological programmers The authors also provide practical guidance for teachers administrators students and their families seeking to identify and combat surveillance in education This urgent eye opening book will be of interest to students and educators with interests in critical media literacy and pedagogy and the sociology of technology and education     **Artificial Intelligence Abstracts** ,1991     **American Book Publishing Record** ,2005     *Library Literature* ,1984     **Who Owns Whom** ,2004     **The Current Digest of the Soviet Press** ,1984     *Index to the Christian Science Monitor* ,1966     Defense & Foreign Affairs Gregory R.
