The purpose of the present research was to test the proposed model designed to increase reliability. First, questions of reliability, validity, generalizability, and the construct validity were tested. Then, to assess the fit of the proposed instrument, a confirmatory factor analysis was conducted. Finally, the construct validity of the instrument was tested by comparing the instrument with other instruments that have been used to measure the same construct.

The company's chief executive is looking back and will focus industrial and manufacturing firms and provide resources for political parties, including campaign financing for a long period by making contact with some of the groups of people who control financial resources that is quite a different situation. Again, you must have some idea of what is going on and how to deal with it. It is a very difficult situation.

## CARE AND MAINTENANCE

To reduce the potential treatment burden, we are now developing a new strategy to assess the impact of *Staphylococcus aureus* on the body's immune system. This new strategy will be based on a better understanding of the immune system's response to *Staphylococcus aureus* and will be used to develop a new vaccine.
