This is the 89th volume of the quarterly journal *New Directions for Adult and Continuing Education*. *Research Anthology on Adult Education and the Development of Lifelong Learners*. Management Association, Information Resources, 2021-03-19. Whether it is earning a GED, a particular skill, or technical topic for a career, taking classes of interest, or even returning to begin a degree program or completing it, adult learning encompasses those beyond the traditional university age seeking out education. This type of education could be considered non-traditional as it goes beyond the typical educational path and develops learners that are self-initiated and focused on personal development in the form of gaining some sort of education. Essentially, it is a voluntary choice of learning throughout life for personal and professional development. While there is often a large focus towards K-12 and higher education, it is important that research also focuses on the developing trends, technologies, and techniques for providing adult education along with understanding lifelong learners' choices, developments, and needs. The *Research Anthology on Adult Education and the Development of Lifelong Learners* focuses specifically on adult education and the best practices, services, and educational environments and methods for both the teaching and learning of adults. This spans further into the understanding of what it means to be a lifelong learner and how to develop adults who want to voluntarily contribute to their own development by enhancing their education level or knowledge of certain topics. This book is essential for teachers and professors, course instructors, business professionals, school administrators, practitioners, researchers, academicians, and students interested in the latest advancements in adult education and lifelong learning. *Learning in Adulthood*. Sharan B. Merriam, Rosemary S. Caffarella, 1999. An essential volume in adult education. Choice. Merriam and Caffarella provide an excellent resource whose value will last until the appearance of the third edition. *Continuing Higher Education Review*. The second edition of *Learning in Adulthood* integrates the most important contributions to adult learning in the last decade. The result is an updated, comprehensive synthesis of what we now know about adult learning, including the context in which it takes place, who the participants are, what they learn, and why, the nature of the learning process itself, major theoretical developments, and much more. Sharan Merriam and Rosemary Caffarella reveal how sociocultural influences can create specific developmental needs and interests and how such social factors as race, class, and gender can shape learning. From this background, they construct a more inclusive perspective on adult learning, guiding readers toward new ways of thinking about teaching, learning, and the broader social implications of adult education.
