Advanced Placement Economics - Macroeconomics

Margaret A. Ray, 2012 *Advanced Placement Macroeconomics* is the go to guide for helping high school teachers to prepare their students for the AP Macroeconomics Exam administered by the College Board. It is designed to provide a basic framework around which you can design an AP Macroeconomics course that best meets the needs of your students. The Teacher Resource Manual provides unit overviews, lesson plan objectives, Teacher Alerts, Bell Ringer activities to jump start each class, visuals, and answers to the student activities. The lessons include instructional activities that are not in the Student Resource Manual. By dividing the Macroeconomics and Microeconomics Teacher Resource Manuals in two and compartmentalizing various elements such as student activities, solutions, and sample multiple choice question answer keys, the materials provide a more intuitive structure and easier navigation of content.

Economic Education Mandate California. Department of Education, 1991. This handbook provides valuable information for educators to use in developing a one-semester high school course on economics. The volume includes activity outlines, a model for assessment, and a list of resources to enhance instruction in economics. The handbook identifies methods to enrich instruction using the state-mandated economic component of the California high school curriculum. Chapter 1 reviews the basic components of microeconomics, macroeconomics, economic systems, and international trade as part of the course content. Chapter 2 describes issues-oriented activities to enliven economic concepts. Ten modules provide opportunities to encourage students to study economics through the application of basic concepts. Chapter 3 identifies the conceptual, semantic, and attitudinal hurdles that can interfere with a student's learning of economics. Chapter 4 illustrates a model for the assessment of student learning in a high school economics course. An appendix identifies 53 resources and addresses for further information to enhance high school economics instruction.
