**Book Description**

Unlocking the Secrets of Prompt Engineering is your key to mastering the art of AI-driven writing. This book propels you into the world of large language models (LLMs), empowering you to create and apply prompts effectively for diverse applications, from revolutionizing content creation and chatbots to coding assistance. Starting with the fundamentals of prompt engineering, this guide provides a solid foundation in LLM prompts, their components, and applications. Through practical examples and use cases, you'll discover how LLMs can be used for generating product descriptions, personalized emails, social media posts, and even creative writing projects like fiction and poetry. The book covers advanced use cases such as creating and promoting podcasts, integrating LLMs with other tools, and using AI for chatbot development. But that's not all. You'll also delve into the ethical considerations, best practices, and limitations of using LLM prompts as you experiment and optimize your approach for best results. By the end of this book, you'll have unlocked the full potential of AI in writing and content creation to generate ideas, overcome writer's block, boost productivity, and improve communication skills. What you will learn:

- Explore the different types of prompts, their strengths, and weaknesses
- Understand the AI agent's knowledge and mental model
- Enhance your creative writing with AI insights for fiction and poetry
- Develop advanced skills in AI chatbot creation and deployment
- Discover how AI will transform industries such as education, legal, and others
- Integrate LLMs with various tools to boost productivity
- Understand AI ethics and best practices and navigate limitations effectively
- Experiment and optimize AI techniques for best results

### **50 Things to Think About as an Early Career Researcher**

Margaret J. Robertson, Donna Starks, Gaelle Horsley, 2025-09-11

This book for Early Career Researchers (ECRs) provides vital insights for jump-starting your research career and guidance on how you can find your own ways of knowing, being, doing, and communicating to progress your career. Charting a course through the first years of a research career while retaining control of your life and your authenticity is more challenging than it has ever been. This book argues that there are multiple ways of being an ECR and that research pathways are uniquely individual. It shows how to prepare yourself for your research journey and contains useful hints about preparing manuscripts, writing research grants, developing supervision skills, and forging a successful research career. Offering solutions to common challenges, it provides insights into preparing CVs, preparing for interviews, and other opportunities for you and your career. Providing practical advice based on extensive experience, this

book is essential reading for those completing or who have recently completed PhDs as well as those in the early stages of their career in higher education
