All Your Friends Like This Hal Crawford, Andrew Hunter, Domagoj Filipovic, 2015-09-01 ALL YOUR FRIENDS LIKE THIS is a topical punchy and provocative look at how social networks are taking over the news How do you get your news Chances are not from a newspaper or the TV that's so old school If you're anything like the rest of us you get it from Facebook or Twitter The great power shift from traditional media to social networks is happening right now This boom means that for millions of us our first exposure to information about the world comes from our friends not news media But social networks don't do news the old fashioned way Because we share stories that make us look good inspire us and fire us up the tone and flavour of the news making process is irrevocably altered What does this mean for media For journalists The audience Are we better off or worse off because of it Highly topical provocative and totally absorbing ALL YOUR FRIENDS LIKE THIS does for the media what Freakonomics did for economics If you're interested in the news in what we read and why we read it then this game changing book is essential

The Christian Advocate, 1913 **The New Media Book** Dan Harries, 2002 What will prove to be the lasting impact of New Media on film and television What kinds of transformations of moving image media are really already under way The term new media has become an effective catch word both as a description of the digital delivery of media via the Internet DVD and digital television and as a reference to the newness such technologies have brought to media more generally And yet the nature of this transformation has been over hyped and too little understood The New Media Book provides an accessible critical intervention into the field of moving image studies and features 20 newly commissioned and thought provoking essays in a format designed to be of wide use to a range of courses in digital media film and television studies The book is divided into five thematic sections Technologies Production Texts Consumption and Contexts and addresses how new media is both embracing and altering the existing media landscape Topics discussed include the ways in which we interact with digital television the changing methods of production distribution and exhibition within the media

industry and how the histories of traditional media have influenced the development of new media The New Media Book examines the corresponding influences that traditional media and new media are having upon each other as well as revisiting central continuing issues surrounding the moving image and the contexts in which all the media operate The collected essays present and redefine these crucially important topics providing the most systematic analysis of both change and continuity in the contemporary media landscape yet published in the field of screen studies **Adolescent Psychiatric Nursing**
